Thread: [Theocritus' Ebook Review for "Spotify Premium Upgrade Methods" by ydra](#)

Theocritus - November 10, 2018, 4:26 am

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [Spotify Premium Upgrade Methods | Make Your Own Premium Accounts Now](#) by "Hydra"
This eBook consists of 7 pages and 3 versions of the same overall method.

The grammar and layout of this eBook is overall fine and there are minimal errors.

As is clearly evident in OP's thread this method is all about Spotify and how to get free or cheap premium. OP includes 3 ways you can do this which varies from whitehat to more blackhat. All 3 methods are easy to do and should take you no more than a few hours at the very most.

None of the content in here is revolutionary or anything brand new, but it is a small collection of how you can obtain Spotify Premium to those of you who are not already aware. As a volume Spotify seller myself, I can say that these methods work and can be very profitable if done right. If you want to just get premium for yourself then you will have it by the end of the day if you purchase this eBook. If you want to sell, set up a shop etc. then it will take a bit longer, but no more than a day at most if you put a little time in.

OP does also include multiple tools you can use for doing the 3rd method in this eBook, which is also the most blackhat one included. The tools will work well enough as I have used some of them myself in the past and you should have no issues getting results with them either.

As said this eBook is only 7 pages long currently and is not stacked with content as of yet, though OP has said he will update it in the future. The methods in here currently work and will continue to work for the foreseeable future.

Final Thoughts

The price point of this eBook is very affordable as well and will be worth a pickup for you if you have no idea about how to get premium or If you are in some other way brand new to this sort of thing.

i made mine from scratch taking hours and hours of writing and work. i imagine hydra did the same.

you can take this nonsensical slander elsewhere.

as a side point i review all products regardless if i have something similar on sale
