Thread: [Can I clear inbox notifications from Donations, and Contracts?](#)

Nate - November 11, 2018, 2:59 pm

I get a lot of donations, and the PM notification at the top annoys the fuck out of me.

Theres no way I want to go read 13 of these. Just wondering if theres a quick fix to this madness?

instead of deleting all PM's

You can filter a message by sender (Help Bot?) or by title (You have received a donation) and read & delete them that way.

Maybe?

Just click on "Sender" and it will make go A-Z (alphabetically)

Or go to advanced search (https://hackforums.net/private.php?action=advanced_search) and type in "Help Bot" in Sender tab
