Thread: [atoo's middleman service \(ONLY DEALS <= \\$30\)](#)

1tap - November 12, 2018, 5:13 pm

Due to the lack of MM's on HF i decided i want to try offering a MM service.
I know how hard it is sometimes to find a trusted MM, so hopefully something good can come out of this.

Currently only doing deals <= \$30

Since im not really a bigname on hf, I can somewhat try to provide old vouches from past deals.
It doesn't really matter but, i have mm'd before on one of the largest csgo cheating sites. (from 2016-2017)

Looking for someone to use me for small deals, so I can get my trust status up.
Only looking to Middleman deals including BTC ,ETH or OSRS GOLD.

Onsite MM only.

TOS:

Do not waste my time.

Make sure the deal is 100% on before contacting me.

I will not be responsible for anything that happens outside of the initial deal with myself as the middleman.

Please try to not hop on the current trend, as your b ratings neither your profile show any sort of marketplace trust.

Either ways, good luck.

Get your rep up by being a trustworthy seller or member of the marketplace first.

@OP - I wouldn't consider doing this until you have a B-Rating of at least 50. I'm sure your intentions are good but you have no trust built within HF as of yet.

I understand, but thats no reason for the lads to go full spastic on me.
Ill keep this open for now, only doing deals under \$20 anyways.

It's not shit posting when I'm trying to gauge how a new guy on hf is thinking of offering middleman services when you've barely ever been on the marketplace.

Either ways, good luck. Just don't scam, then all is well.

To the potential buyer, make sure you research your middleman before you send anyone your money.

Seems like you have good intentions but you need to build yourself up on HF first before anyone will trust you.

B ratings, rep and being very well known is how you get the trust to be a middleman.

You guys seem so raged?

Just let me do my thing, i have never scammed since my time online (2008).

I understand what you are trying to do but you are doing it the wrong way, you are simply just flaming.
