Thread: [Iphone 8plus or Samsung S9](#)

Stankv01 - November 13, 2018, 4:53 am

Hello guys! I want to change my Huawei P20lite and i want to ask what is the best from high quality phones.

Thank you!

Skepticism - November 13, 2018, 5:00 am

Unless you're going to end up getting the iPhone X, don't do it.
Go for the Samsung S9 or save for the X.

Sixen+ - November 13, 2018, 5:01 am

I would never settle for anything less than an iPhone. Don't quote me.

The Baller - November 13, 2018, 5:02 am

I would go with the iPhone.
It's the best phone company.

voidshifter666 - November 13, 2018, 5:05 am

If you want more freedom, go for the S9. If you want to take good pictures, go for the iPhone.

Jink - November 13, 2018, 9:18 am

I'd be choosing the s9 since it is more recent and I'm always in love with Android more than I am with iOS

b?xxy - November 13, 2018, 9:19 am

I have an iPhone 8.
If I were you, I would get one of the newer iPhones rather than the 8.

dcybergeek - November 13, 2018, 9:44 am

iPhone 8 Plus. Because it'll definitely get iOS updates for the next 4 years straight just like the 5s.

Dope - November 13, 2018, 12:25 pm

Depends on if you prefer ios or android. For me I'd go for 8+.

SIM-3429335 - November 13, 2018, 12:27 pm

S9 but in my op i would changed to the oneplus 6t which i already have.

Mytein - November 14, 2018, 3:40 am

I'd say S9, just a question though why are you coming away from Huawei? I heard the Mate 20 Pro is great. I could be wrong though.

Oh really? Damn... I'll have to check the newest reviews to see what other people are saying about the phone...

I thought the phone was supposed to be the top android out ATM.

I believe that Samsung has better camera and colors of the image done.
If it's important feature for you.

No one smartphone have better camera than iphone trust me bro!

Thank you for support. ?

webdev77 - November 15, 2018, 9:44 am

Go for the S9 or iPhone XR. Don't bother with the iPhone 8 at this point.

jennytrump - November 15, 2018, 10:54 pm

It will depend on your preference or which operating system you want to use. Android or iOS

Winds - November 17, 2018, 7:54 am

It really depends if you're an Android or iOS guy, just use the OS that you prefer, in my opinion, it's just personal preference.

I just asking lol? I dont know what work better but now im with huawei and he work bad..

He is on 1 month ?

ZIKO000 - November 17, 2018, 2:38 pm

s9 is a brilliant phone and also has a good camera to it.

I don't agree.

iPhone just make pictures as they are.

But other phone can fulfill colors and other stuff.

iPhone has the best audio recorder - that's for sure.

IMEICHECK - November 21, 2018, 8:23 am

Iphone 8Plus because it's verry ok phone.

Me i have iphone 8plus and I am very pleased

bananachocobo - November 21, 2018, 8:29 am

If you want to do more than the average phone users, go for Samsung.

Ldef672301 - November 24, 2018, 8:55 am

salut , j étais sur iPhone pendant des années et je ne jurais que par eux ! et bien il y a 2 ans j'ai

changé pour un Samsung S8 et sérieux c'est le top

tripac - November 24, 2018, 8:57 am

If you want non biased phone thats not overpriced and pretty much beats every single phone mentioned here, go for huawei mate 20 pro

device - November 24, 2018, 3:24 pm

S9 for sure, a great phone really worth its price.

Soul - November 24, 2018, 6:46 pm

Go with the 8+. I've had mine now for over a year and haven't had any issues with it.
