Thread: [GIF as an avatar?](#)

passwords - November 14, 2018, 7:06 pm

I found this pretty cool GIF that I would like to use as my avatar.
I tried uploading it but as you can see it's just a static image.

Why is that?

GIF

Jesus, that would be one annoying avatar. It's probably the photo size though.

Edit: The maximum size is 100kb and that gif is 614kb.

I wanted something that pops

Haha but i get what you mean, wanted to play around with a few.

I'll try compressing it! :-)

Fzsix - November 14, 2018, 7:10 pm

Ah yes, Omni just made a twitter post about not annoying him with flashy GIF images xD

Slow the gif down and compress it. Best of luck. If you need help I recommend PMing [Fortunate](#).

That link doesn't work.

Download the image and try to upload it directly.

It's the dimensions my friend. It needs to be 120x150, resize it.

Oh lmao!
got it working, thanks! :-)

Haha, no problem.

That is a very interesting GIF, I need to do some data removal after downloading that one ?

bananachocobo - November 14, 2018, 10:30 pm

That avatar has been distracting me for about an hour now.
I want mine just like it. Lol. ?

PerfectStorm - November 14, 2018, 10:33 pm

Yikes I think that would be annoying :)

Omniscient - November 14, 2018, 10:40 pm

This is why we don't want huge avatar size limits.
