Thread: [ALPHA Crypter - Not like other crypters - INNOVATIVE & POWERFULL](#)

Securifier - November 15, 2018, 5:32 am

[Video: <https://www.youtube.com/watch?v=DzTsi7H098c>]

[Available now on ALPHACRYPTER.ONLINE](#)

Fulya Donmez - November 15, 2018, 5:55 am

Kindly provide scan and runtime scan result

Securifier - November 15, 2018, 6:09 am

Here the scantime

Yin Yang - November 15, 2018, 7:44 am

Are you offering any trials? I'd like to test this crypter

Securifier - November 15, 2018, 8:16 am

To prove my crypter is the best, i accept to give you a free tiral.

But, builds are only \$1 !

Download the app, create an account, and PM me your username.

MOAA6 - November 15, 2018, 11:18 am

This is really cool, thank you much =)

SIM-3132187 - November 15, 2018, 12:16 pm

"Here the scantime

[Image: [index.php?id=455JvqiSRI](#)]"

You failled, but GLWS ?

Meedman - November 15, 2018, 2:51 pm

I know this guy since his start and he have good knowledge and learn fast ;)
GLWS !

Kind Regards,
Meedman

(Nov 15, 2018 01:16 PM)frenchy440 Wrote: [\[CITE\]](#) "Here the scantime

[Image: index.php?id=455JvqiSRI]"

You failed, but GLWS ?

He don't have failed is just because SpryralScanner have cloudflare on image ?

borito80 - November 15, 2018, 2:58 pm

Hi alpha, the auxiliary code is .net 2.0 or 4.0?

SIM-297220 - November 15, 2018, 3:49 pm

you have a bug, i put 2\$ via btc, then when i wanted to add more.. i just get the this <http://prntscr.com/lixfxa> fix, i got full FUD output will see tomorrow what results i get

Securifier - November 16, 2018, 12:51 am

You failed, but GLWS ?

I will fix it... As Meedman said, it is spiralscanner fault.

(Nov 15, 2018 03:51 PM)Meedman Wrote: [\[CITE\]](#) I know this guy since his start and he have good knowledge and learn fast ;)

GLWS !

Kind Regards,
Meedman

He don't have failed is just because SpryralScanner have cloudflare on image ?

Thanks :)

(Nov 15, 2018 03:58 PM)borito80 Wrote: [\[CITE\]](#) Hi alpha, the auxiliary code is .net 2.0 or 4.0? Currently coded in .NET 2.0 but compiled in 4.0 to get a better compatibility to all payloads.

In a next update, i will let the user choose compilation settings.

(Nov 15, 2018 04:49 PM)access222 Wrote: [\[CITE\]](#) you have a bug, i put 2\$ via btc, then when i wanted to add more.. i just get the this <http://prntscr.com/lixfxa> fix, i got full FUD output will see tomorrow what results i get

Thanks for buying :)

Being FUD is the aim of a crypter.

I will check the source of your issue.

turboaimer - November 16, 2018, 2:42 am

I really got suprised, I didn't think that it would make it FUD by the first try with simple features enabled, I really suggest you buying this crypter (15\$) is nothing for something like this!

Securifier - November 16, 2018, 5:08 am

(Nov 16, 2018 03:42 AM)turboaimer Wrote: [\[CITE\]](#) I really got suprised, I didn't think that it would make it FUD by the first try with simple features enabled, I really suggest you buying this crypter

(15\$) is nothing for something like this!
Thanks for your review :)

New Update

Added two modules :
- File Binder
- File Downloader

Theses modules drops a file on the target computer, and executes it. It can be any format (image, video, exe...), and will be opened by the default program configured in Windows.

GOLLUM - November 16, 2018, 5:29 am

@alpha coder does your crypter have unicode support?

Securifier - November 16, 2018, 7:11 am

(Nov 16, 2018 06:29 AM)\$CANNEX\$Wrote: [\[CITE\]](#) @alpha coder does your crypter have unicode support?

Yes, full unicode support.

In modules, and injected apps

Take a look at this :

flambii - November 17, 2018, 11:21 am

I always love your products ! A lot better than your first crypter, and your prices are so cheap !

I recommend it to everyone !

3DES - November 18, 2018, 4:49 am

(Nov 16, 2018 08:11 AM)Alpha Coder Wrote: [\[CITE\]](#) Yes, full unicode support.

In modules, and injected apps

Take a look at this :

When people ask for unicode support that is not what they mean

azinarazinar2017 - November 18, 2018, 5:09 am

does the crypter has icon changer ?

Securifier - November 18, 2018, 12:48 pm

(Nov 17, 2018 12:21 PM)flambii Wrote: [\[CITE\]](#) I always love your products ! A lot better than your first crypter, and your prices are so cheap !

(Nov 18, 2018 05:49 AM)3DES Wrote: [\[CITE\]](#) When people ask for unicode support that is not what they mean

And what do you mean by "unicode support" ?

(Nov 18, 2018 06:09 AM)azinarazinar2017 Wrote: [\[CITE\]](#) does the crypter has icon changer ?
Not yet, but it will be implemented in a future update.

You can use ResourceHacker that allows you to change icon and assembly information very easily
:) Check it out !

3DES - November 18, 2018, 1:26 pm

[quote='Alpha Coder' pid='57895469' dateline='1542574136']

And what do you mean by "unicode support" ?

It means whatever you crypted stub will work on for example: chinese, korean machines, using unicode filepaths without breaking. Using W functions from winapi instead of A

Vagner - November 18, 2018, 2:23 pm

don't buy this shit!

[http ://prntscr.com/ljznmj](http://prntscr.com/ljznmj)

Is there still people using ANSI ? ?

Yes, C# is managing unicode very well natively, and yes, API calls ends by W.

FRESH REFUD

It was tested 1h before the refud...

More than 10 av's are using the BitDefender database. That makes a lot of detections appear at the same time.

Now it is fixed.

borito80 - November 19, 2018, 11:09 am

I tried installing in VM with windows 7 x86 and x64 and in both of them I got an error during the installation.

You need the .NET Framework 4.0 tu run this file.

And, an internet connection to let the installer download the files.

If you still have problems, email me at support@alphaproducts.online, and i will TeamViewer you.

(Nov 19, 2018 06:44 PM)Vagner Wrote: [\[CITE\]](#) Report for scam! i don't install this file anywhere. i build and check, after this i write post... i ask moderators to test your crypt.

This is written in C++, so it is a native program.

Is should be compatible with VBC.exe and CVTRES.exe injection.

If this keylogger does not uses EOF data storage, it would be perfect. But the coder don't tell this.

FRESH REFUD

Right. Because i crypted my file and tried to execute it on a server, but it got detected and blocked.
Then i uploaded it to virustotal and then it showed 9 detections.

Goodjob blaming it on other people when you can't keep your file UD as you claim in the thread.

And thats without me actually crypting malware. Just your "FUD Stub".

EDIT: I posted these screenshots for no reason actually lol

Securifier - November 30, 2018, 3:03 am

yes

If alpha crypter isn't fud cuz there are some scan on VT, it's a bad fudtime. Because the main problem is not the clients who scan on VT, but the bots that scan on VT.

Securifier - December 3, 2018, 10:46 am

(Dec 2, 2018 07:50 AM)TrustMelmEngineer Wrote: [\[CITE\]](#) Hi, the subscriptions give you FUD crypts?

The most of the time yes. I refud when the stub goes more than 3/22 detections, so you should never get more.

(Dec 3, 2018 04:51 AM)frenchy440 Wrote: [\[CITE\]](#) If alpha crypter isn't fud cuz there are some scan on VT, it's a bad fudtime. Because the main problem is not the clients who scan on VT, but the bots that scan on VT.

I know that bots are scanning on VirusTotal, thats why i refud very often to keep the more fud i can.

FRESH REFUD

New features comming soon :

- Script executer (Powershell / MsDOS / VBS)
- Power manager (can shutdown, reboot, lock.... the computer)

New feature out : Scripting

You are now able to execute custom lines of script in Batch MSDOS, or powershell on the target computer

I'm now working on power control options.

Hackt00lz - December 4, 2018, 6:14 am

Does is work fine on native rats

Securifier - December 19, 2018, 2:57 am

(Dec 19, 2018 03:44 AM)DEVINE FAVOUR Wrote: [\[CITE\]](#) Is it a free crypter or paid one please indicate here

It is a paid one, just checkout the prices.

But you can pay \$1 per crypt, or a subscription.

josephmichael11 - December 19, 2018, 2:01 pm

Will this work with Qassar? any recommend settings? Tanx

Securifier - December 20, 2018, 1:58 am

(Dec 19, 2018 03:44 AM)DEVINE FAVOUR Wrote: [\[CITE\]](#) Does is work fine on native rats

Yes, the RunPe allows you to inject to natives processes : vbc.exe and cvtres.exe

It's fully compatible with native rats.

(Dec 19, 2018 03:01 PM)josephmichael11 Wrote: [\[CITE\]](#) Will this work with Qassar? any recommend settings? Tanx

It should work, yes.

The standars settings are :

-> On the right : Install with the method you want

-> On the left : Payload injected to VBC or CVTRES

-> Additional optional features : Add sleep (20s) just before payload, add a messagebox after install

tkmremi - December 20, 2018, 8:42 am

No problem :) i will test it

I have a problem .. PM PM PM PM PM

Securifier - December 21, 2018, 1:50 am

New module:

"Exit"

Allows you to exit the stub, or self delete it, and skip further modules.

Stub REFUD :

Securifier - December 23, 2018, 8:52 am

Alpha Crypter now represents :

A total of 199 users and 25 subscriptions.

hackto jail - December 23, 2018, 11:01 pm

Am getting 2/22 now it's increase into 3/22 detection please FUD update needed.

Securifier - December 24, 2018, 12:24 am

FRESH REFUD

hackto jail - December 24, 2018, 8:50 am

Detecting. Not FUD please. I get 3 Detection

Securifier - December 25, 2018, 9:43 am

(Dec 24, 2018 09:50 AM)hackto jail Wrote: [\[CITE\]](#) Detecting. Not FUD please. I get 3 Detection
Change icon / assembly informations.

Getting 3/23 with just a simple crypt is not that bad.

Use ResourceHacker, free and simple resources editor.

hackto jail - December 25, 2018, 3:15 pm

Not getting you right. Can you TV me so i can get your point...

Universe_X - December 30, 2018, 10:34 am

ok you logged in and then logged out I sent u a support email as well, I am being serious:

the crypter is not connecting to any rat. tested with # svtres, babylon vbc, nanocore both reflection and itself non worked buddy. if this can not be fixed, i would like a refund

hacktojail - December 30, 2018, 5:07 pm

11/22 that's very bad. No support assistance to help Refud . License days keep reducing with wasteful days keep counting..... Worried.

Chemokoppie - January 3, 2019, 2:59 am

Refud today, still 10/22 on spyralscanner for me

hacktojail - January 3, 2019, 4:52 am

11/22 or 10/22 have been that way for almost a week now.. I don't understand why you selling and can't refud i guess we have abandon projects.

Securifier - January 3, 2019, 10:53 pm

I provided a very slow support between the 12-24 (Christmass) and the 01-01 (New year).
I just Refuded the stub yesterday.

Chemokoppie - January 4, 2019, 2:13 am

Yes, we've seen it. But when I tested it yesterday, it was still 10/22 on spyralscanner, after refud. Tested it today with basic modules only, got 11/22.
Don't know what's wrong but I'd like to see it fixed.

hacktojail - January 4, 2019, 8:58 am

I still get 11/22 after you refuded. Can you just get this straighten out.

Velial Squad - January 4, 2019, 10:20 am

looks like a decent product, glws

hacktojail - January 5, 2019, 3:12 am

Subscription is wasting everyday by day. Since i bought this product i haven't for once get a clean results.. Now my Subscription plans left with some few days. I need know what impact Your refud does please.

Securifier - January 6, 2019, 2:45 am

(Jan 4, 2019 11:20 AM)Velial Squad Wrote: [\[CITE\]](#) looks like a decent product, glws
Thanks :)

(Jan 5, 2019 04:12 AM)hacktojail Wrote: [\[CITE\]](#) Subscription is wasting everyday by day. Since i bought this product i haven't for once get a clean results.. Now my Subscription plans left with some few days. I need know what impact Your refud does please.

When i refud, i create 2 stubs, used randomly (to keep longer FUD).

Theses stubs are detected by 0/23 antiviruses by SpyralScanner on delivery.

hacktojail - January 6, 2019, 4:59 am

How can i attach my Spyral Scan for you to see what am talking

Yesterday Scan
Anti-Virus Signature Date Detection
Avira 05.01.2019 TR/Dropper.Gen
Eset 05.01.2019 a variant of MSIL/Kryptik.QJZ trojan
Ikarus 05.01.2019 Trojan.MSIL.IRCBot
Kaspersky 05.01.2019 HEUR:Trojan.MSIL.Disfa.gen

Securifier - January 6, 2019, 1:58 pm

Today scan :

<https://spyralscanner.net/result.php?id=M0d5K7PH9g>

hackto jail - January 6, 2019, 2:30 pm

I just check d link how to fud this both Anti Virus Eset And Kaspersky ??

Universe_X - January 7, 2019, 3:04 pm

The crypter is still breaking the executable file. The output file doesn't work after encryption. Tested in virtualbox but I doubt that's the problem. 7/30 still. something's wrong here

Chemokoppie - January 8, 2019, 10:05 am

Still getting 11/22, I have no idea what I'm doing wrong

Universe_X - January 8, 2019, 10:59 am

(Jan 8, 2019 11:05 AM)Chemokoppie Wrote: [\[CITE\]](#) Still getting 11/22, I have no idea what I'm doing wrong

Does the encrypted file even still work for you? Why is it only me that seams to have this issue? Tried crypting couple times with different files like teamviewer, rats, all fioes gave no connection or operation.

TrustMelmEngineer - January 8, 2019, 1:21 pm

"I refud it at 3/22" - file is 11/22 - 10/10 would buy again *also the rat doesnt even work

hackto jail - January 8, 2019, 3:21 pm

I am not sure i can buy again. Because since the very first day i bought this crypter i haven't able to get it clean now i got some few days left to expire. Suck!!!

PerfectStorm - January 8, 2019, 3:27 pm

(Jan 9, 2019 07:46 AM)hacktojail Wrote: [\[CITE\]](#) Well get a licence and give it a try and let me know if you set it all right! Enjoy

Already have a license, why wouldnt i?

Chemokoppie - January 9, 2019, 11:11 am

Refud today, getting 10/22

hacktojail - January 9, 2019, 4:28 pm

(Jan 9, 2019 12:11 PM)Chemokoppie Wrote: [\[CITE\]](#) Refud today, getting 10/22

Mate move on and crypt else where. I have also moved on nothing is fud here no maintenance here. I have come to realized It's abandon project that need attentions. Probably maybe it will be refix but not at this time.

Securifier - January 9, 2019, 11:59 pm

(Jan 9, 2019 12:11 PM)Chemokoppie Wrote: [\[CITE\]](#) Refud today, getting 10/22

Did you forget to crypt your file ?

Today scan on Imminent Monitor 5 encrypted :

(Jan 9, 2019 05:28 PM)hacktojail Wrote: [\[CITE\]](#) Mate move on and crypt else where. I have also moved on nothing is fud here no maintenance here. I have come to realized It's abandon project that need attentions. Probably maybe it will be refix but not at this time.

The project is not abandoned, I update very often for new fixes and features.

Just open your crypter and see update frequency.

Frixas - January 10, 2019, 6:42 am

is there an icon changer somewhere in this crypter? Cause I can't find it, and if it doesnt, does it keep the same icon that it had before?

raumdeuter - January 10, 2019, 7:22 am

when i click build file it just hangs. any ideas?

Securifier - January 10, 2019, 7:56 am

(Jan 10, 2019 07:42 AM)Frixas Wrote: [\[CITE\]](#) is there an icon changer somewhere in this crypter? Cause I can't find it, and if it doesnt, does it keep the same icon that it had before?

The crypter does not add icon to your file.

You can use ResourceHacker (free & easy to use) to add one if you want.

(Jan 10, 2019 08:22 AM)raumdeuter Wrote: [\[CITE\]](#) when i click build file it just hangs. any ideas? Is your file very huge ? (the crypter uploads it to the build server)

Frixas - January 10, 2019, 8:07 am

(Jan 10, 2019 08:56 AM)Alpha Coder Wrote: [\[CITE\]](#) The crypter does not add icon to your file. You can use ResourceHacker (free & easy to use) to add one if you want. Well then you could add one, it would be quite useful, just suggesting.

edit: its detected as of right now, its getting 10/20

Universe_X - January 10, 2019, 10:20 am

(Jan 10, 2019 08:56 AM)Alpha Coder Wrote: [\[CITE\]](#) The crypter does not add icon to your file. You can use ResourceHacker (free & easy to use) to add one if you want.

alpha why are you doing this? Nothing works, u keep saying refud, and the stub doesn't even do anything.

Frixas - January 10, 2019, 12:12 pm

Seriously alpha, you need to refud it...

shit crypter, dont buy it, 10/23, coder says crypter refuded but its not, even though you hadnt spend the credits, you cant refund but thats not pint, basically developer abandoned the project.

Chemokoppie - January 17, 2019, 9:56 am

(Jan 10, 2019 12:59 AM)Alpha Coder Wrote: [\[CITE\]](#) The project is not abandoned, I update very often for new fixes and features.

I'm working on adding random junk data into buit stubs at each build.

It will probably increase FUD time.

Universe_X - January 17, 2019, 7:04 pm

(Jan 17, 2019 01:31 PM)Alpha Coder Wrote: [\[CITE\]](#) I'm working on adding random junk data into buit stubs at each build.

Ok but if this does not do anything my man I will indeed like a refund. You do kno you've been slacking to the point you may be a scammer. just lowkey.

edit: yup your update still not fud and crypter still breaks the original file. ?

Chemokoppie - January 18, 2019, 9:00 am

(Jan 17, 2019 01:31 PM)Alpha Coder Wrote: [\[CITE\]](#) I'm working on adding random junk data into buit stubs at each build.

The crypter is compatible with all binaries, excepting the ones using EOF data storage.
The owner of your miner does not specify it.

If you want, send me the build file via PM, and i will crypt and execute under VM.

It should work.

travisci - February 19, 2019, 12:29 pm

So, can you provide a runtime/st scans please?

Urregular - March 8, 2019, 10:37 am

When will we update? currently in very poor condition 11/22 very bad !!!!!

Urregular - March 11, 2019, 3:43 am

The program is nice but not up to date.
