Thread: [\[RuneScape\] Bug Abuse Team](#)

SIM-2501407 - November 15, 2018, 6:17 am

I am looking to put a team together. Currently just PFM and myself.

If you are not someone who is experienced in bug abusing, find another thread. There is no reason for me to bother teaching you the basics of B.A.

I will not hint or disclose information on any bugs.

Those who were a member of AWU, BugAbuse.net, and/or RSPUnit, message me.
For anyone else, post/pm your past findings.

Thanks. ?

Note: I know we did bug abusing on RSPS for years, but we are doing RS strictly.

Best of luck with your team, is plague still within the Bug Abusing scene?

SIM-2501407 - November 15, 2018, 5:00 pm

Gotcha, well keep us posted. I am always interested when it comes to bug abusing on Runescape. I miss seeing videos because of so many fakes.

Again, best of luck. ?

Not sure if that is something he would want public. Nevertheless, do you have his contact info? If you do, please PM it.

Kosmos - November 26, 2018, 1:29 pm

I am a friend of Plague. I was on the same two forums that he was, Ezud and one prior. We were on BugAbuse for some time, but it was made from an old member of Ezud, too. I am willing to join. I am rusty, but willing.

If you know what Ezud is, you're one of the earliest bug abusers I have ever met. You were doing this type of thing way before me.

Sent you a PM.

OSRS bug abuse is pretty much over now days you would be better off moving to a rsps.

It is more for the challenge and for the fun than anything else.

Yeah, the community is completely dead, but there is some bugs out there to be found.

MrTrusted - November 29, 2018, 7:29 am

I have some experience and would be interested.

FrozenBolt - January 16, 2019, 6:56 am

hello, I know to use ce and ra to bug abuse but have never been in the act of doing it due to not finding anyone to help me get on my legs, I would ask if i was able to join you guys, i know the basics but no real experience, abused alot in many rsps's but not that much of a huge bug that i found

Not to gravedig a thread someone already gravedug, but why is it pretty much over?

If anything it'd be more rewarding and beneficial, wouldn't it?

Why? Because the team for OSRS is pretty advanced and has fixed majority of the bugs, yeah would be nice if someone could find another PAFT / no-clip, but it'd be hard and challenging. RSPS nowadays just a bunch of skiddies and really don't know how to log stuff.

OSRS - RuneScape really, has been dying out for years. RSPS are extremely dead compared to what they once were. Both are still around and doing well, but they are not thriving like they once were. Their promotion with mobile cannot go unforeseen as a great comeback, but it never will be the game it once was. It is just a matter of fact that the game is not as popular as they were 10 years ago.

More rewarding and beneficial is somewhat opinionated. I would say it is a lot less rewarding, if your goal is financial gain. OSRS gold is not as valuable as it once was; anybody who has bought or sold gold know this to be true. However, it is more rewarding, for personal satisfaction. RuneScape has been around for a very long time, therefore, many of the bugs that you can think of have at some point worked, but are now patched. Finding exploits that work would be more satisfying nowadays than in the past.

The team I created, Darkness Reigns, is extremely inactive. Although I found an interesting pieces of code that are broken with minigames (one with clan wars and one with being able to have a cannon into fight caves), I have chosen to adventure out with my spare time. Rather than spending countless hours attempting exploitation, I am taking my time to use programming and my knowledge elsewhere.

I am not saying that the team is dead, but I do not see us doing anything anytime soon. If you want to look into exploitation, my recommendation is to look into other games. Learn how to use Wireshark, other tools, and learn to write your exploits. Feel free to spend your time on OSRS if that is the game you really do enjoy and have fun looking into exploitation while playing.

BTW: If you die in a cut scene nowadays, you automatically regain 1 hp and are removed from the CS. I know back in the day it would break the CS (freewalk) or stall the death. I forget which of the two it was, but don't bother trying out that method.

Anyways, hope that answered some questions that people have.

For now...
