Thread: [Very Simple \[add this watermark on two images\]](#)

Camf ? - November 15, 2018, 9:22 am

Hey guys, would be a big help as I don't have the tools on my chromebook to do it. All I need is this watermark, added to both of these images:

Watermark: <https://imgur.com/0CUYx5K>

2 images: <https://imgur.com/PD9fCV2>
<https://imgur.com/7RtbMTr>

In the right-hand bottom corner, not too small needs to be highly visible but not obnoxiously taking over the picture

Thanks in advance!
