Both of you are leechers yourselves. No one is going to pay \$40 for his pack that's literally nothing different but 2 transitions and then give them to you for free. SorrynotSorry.

yeah i agree, there's literally like 2 new transitions, its a money grab and hes a dick, he literally just shows off everything he buys with his "pack" money on his story and shit

also all of his shit can be made in less than a minute if you know how to use after effects

ill upload his original pack if sc6ut will stop fucking DMCA'ing me
