Did you use a contract? If not you can't post a deal dispute.

Also, this seems like financial fraud which is not allowed on here anyway

Hey sorry for you getting scammed!

Post the contract in the OP: <https://hackforums.net/contracts.php?action=view&cid=15223>

And change your images from http to --> https
that's why they aren't appearing.

EDIT: Just read the thread. This is considered fraud and isn't allowed, sorry but you actually broke the rules.
