Since I'm an active scribd user, and I didn't see a similar post yet on the forums, if you have some scribd locked content or book that you want to read post in the thread and I'll download it for you. ?

This will be great for those folks who are into reading literature. Do they happen to have anything by James Patterson? =D

they do, I think the best way for this to work is for users to simply search on scribd and send me the link and I'll dl and reupload.

So we don't have to go back and forth multiple times
