Auction

for

Xerotic Bot DNA Award

Hello everybody. My name is Xerotic and I [recently became an Administrator](#) here at Hack Forums. I will be (and have been already!) creating plugins, adding features to the site, and improving site functionality where needed. While I am in this position I will be dedicating my time towards HF full time. In order for this to be possible, however, I must be able to earn money to pay my bills. As part of a plan to allow me to dedicate the time I will be (and have been) dedicating to HF, Omniscient has allowed me to grant the [Xerotic Bot DNA](#) award once per month with the understanding that it will be sold or auctioned each month (or granted for free/not granted at all). This will allow me to afford my rent/bills so that I can continue to pump out code and bring some amazing features to HF. Features that have been talked about for years are going to be coming to HF swiftly, but only as long as I am able to afford to dedicate all of my time towards the site.

Award

The Xerotic Bot DNA award is very rare. It has only been granted to five members! The award will only be granted once per month and it will either be sold, auctioned, or given away. It is designed to support me so that I can support Hack Forums.

I would like to thank [Novica](#) for creating the award image.

Auction Details

I will update the thread with the current high bid and bidder as often as I am able to. If you are the winner of this auction you can have the Xerotic Bot DNA award granted to yourself or another member.

This award is dope. Good luck Xero.

Omniscient - November 18, 2018, 10:30 am

Xerotic worked very hard this month. I drove him to get a lot done behind the scenes with SEO work and some fixing of HF features. It may seem like we didn't really introduce a lot of new stuff to HF this past month but a lot of work got done.

Our next phase of work should be more stuff for Vendors and Crews. Pretty sure Xerotic is inspired by the community and someone grabbing that XDNA award for BIN is very loud applause.

CyberError - November 18, 2018, 10:38 am

Award & Xerotic Both are dope , gud luck bro , You really deserve the love and fame

muzzy. - November 20, 2018, 3:02 am

Generate a group and sell buy ins, sell bytes, idk. You really deserve a proper paycheck and 500 usd per month isn't a lot for the amount of coding (I'm sure you have other sources of income from HF / outside but still). It's a shame that it seems so pivotal that this award sells for 1k cause you deserve a tonne of money for all the work you've done : - (

I don't think a cheaper award is a good idea

Best option would be buying into his crew or group for a month

Like \$20 a month @ 20 slots is \$400/m for him

On-top of the monthly Xerotic Bot award which will get him 500-1k

That way people who can't afford the award can still contribute

At least a group/crew would be recurring income.

I'll buy the DNA award, just not this month, especially due to the sharp BTC drop.

I don't think that's the issue.

It's true that BTC have been dropping the past couple of days but that definitely was not the case for the rest of the week/month.

Also this award was up for sale days before BTC decreased so much.

I think you'll find whenever BTC is decreasing most people wont touch it.

I have made 0 sales since 15th and I only accept BTC, this is due to the decrease in BTC. The weeks before I was making 1/4 sales per day without fail.

& no. This thread was up on the 18th. BTC dropped on the 14th.

If it was that easy why even having this award auction?

Then he might aswell put up a donation button thread or whatever.

People clearly want something in return and the award sells because it's expensive.

However at one point most if not all big award spenders have the award.

It's definitely a smart idea if OP looks for other sources of income on top of selling the award.

I never disagreed on the fact that people won't touch their BTC now, ofcourse they wouldn't but i don't think that BTC dropping the past 2-3 days is the issue that OP isn't getting higher offers on his Award because as i already said the award was up for sale days before BTC started dropping.

So far all of them have been bought within days of the auction going live. Most likely it'll take a bit longer this month because of the massive dive cryptos took.

BTC dropped on the 14th? maybe a few percent at best... which is the case for about half a year now, it drops and increases a few percent by the week nothing new.

It started dropping major percentages for the past 3 days now.

He joined mid 2018 and has since donated thousands of dollars to HF.

Alright fair enough but you have to admit it aint like people are lined up in rows to get a 1k award cuz if that was the case people would just purchase BTC at the current price and then buy the award without loosing any funds and you would see the purple donation diamond award alot more often at threads then i see now.

What i do know for a fact is that BTC have been jumping between 5.5k and 7.5 for about a year now.

I'm a very long term investor not a daily investor, short or mid term investor, nothing special happened with BTC for the past year untill 3 days ago when it decreased heavily and until yesterday when it decreased even less then 5k.

Not sure how I'm twisting your words. You said "BTC dropped on the 14th? maybe a few percent at best..."

It dropped 10% twice this week. From the 14th I haven't made sales in BTC. I'm just stating facts on what happened. I don't know why you're telling me your a long term investor. I literally said people stop using BTC when it decreases and this week it's decreased a lot, twice.

Anyway back to the main point of this thread.

I actually have made alot of sales in BTC, i don't notice the drop in my sales tbh...
Most customers purchase BTC right on the spot with coinbase or localbitcoins.

Might be your products that the real issue is, not BTC dropping lol.

Not sure where or what you're selling but please send me the sales charts so I can see that they didn't change whatsoever.

You think it's a massive coincidence that I go from selling between 1-4 daily to 0 when BTC dropped 10% and then again. Think again.

Why y'all arguing on Xerotic's thread?

Fire - November 20, 2018, 11:18 am

I find it hilarious how people act like big ballers on Hackforums.

Why are you justifying and giving excuses to why you can't buy the award? This is a cool thing to support an admin and you are not obliged to spend your money.

"Oh god, BTC went down so I can't buy it... maybe next month?" - If a \$100-\$300 is such a big deal to you, maybe you shouldn't spend your money on an award.

An average of 60 sales per month is such an anecdotal piece of evidence that shouldn't even be used as an argument. That amount is literally irrelevant.

Alright guys. The person who gets the DNA award for this month at its bin price will be gifted the LR Head + Support Feather awards from myself as extra awards. Both are OG awards that were obtainable back in 2011 and are no longer available.

I think a xerotic patreon would be a really good idea and I'd happily donate like 5-10 bucks a month for it. I think plenty of others here would too and it'd be a steadier stream of income than this 1 time buy award.

Patreon has lots of fees.

- Patreon takes 5% of successfully-processed payments.
- the cost of moving funds from your patrons to your creator balance. This fee can be viewed in your Dashboard and is listed as the "Processing Fees".

Xerotic could just post "donation details" for users that want to donate. Instead of going through a third party.

CASH App (Easily used by most American's) & BTC Address would suffice.

I'm definitely not in the minority as someone that doesn't use crypto and would prefer to pay via debit as someone outside of the US. I appreciate everything Xerotic does but I don't think many are willing (especially as people way outside of the US) to set up accounts on random apps to donate. I'd be happy if there was some medium in which I could easily direct debit money each month and patreon seems to be the most efficient solution for all members to do that.

The awards tiers and ease of access there makes it all quite straight forward, even if there are fees.

If he gets a stream of 500 pm on patreon and loses 70 bucks to it, taking home an extra 430 or whatever as opposed to something between 500-1000 depending on how this award sells seems preferable. He could also just have a BTC donation link posted in a seperate thread too for people that want to do that (although I don't think anyone wants much to do w/ crypto atm).

A code dev group like alliance or something with \$20 PM buy ins would be a good idea too.

I have thought about Patreon for a while. Steve has been bringing it up. I decided today to try it out and see if it can help.

I do offer rewards (mainly reputation) but in the future I may have something better to offer. Also, the Bot Crew invitation would be the specific month of that tier. I'll let the patrons decide on which userbar they want for it too.

Exactly. Please no one post unless you are bidding or possibly thanking Xerotic for his work.

Quote:Xerotic could just post "donation details" for users that want to donate. Instead of going through a third party.

No, he cannot. I deleted that link. I'm not allowing it.

This is the agreement I have with Xerotic for his compensation. He gets paid by me and he gets to do this award once per month. He's going to get a raise soon from me. I told him NOT to do the award this week because I can feel the pinch in the economy and the members. Most crypto owners are suffering right now and splashing \$1k for an award is asking a lot. If you want to support Xerotic and the work he does then donate to HF. His job here is to code for the community but this is still my website and donations are my revenue stream.

I'm giving this about 12 hours to finish else it goes to Cameron for \$500 who I believe is high bid.

Kill Joy - November 21, 2018, 11:27 am

Placing a \$525 bid by me.

Seeing how there has been some drama with the crypto today and some members being removed/added back.
