Thread: [\[SMM PANEL SOURCE\]](#) [\[API\]](#) [\[DEPOSIT\]](#) [\[ADMIN PANEL\]](#) [\[HUGE\]](#)

BenzaHdd - November 18, 2018, 3:10 pm

DEMO IS NOW AVAILABLE [HERE](#)

Price is standing at \$75 for a copy of this panel. Note that this does not get likes, followers on the site.... it uses other sites API to process orders. If you want your complete own api for getting likes, followers etc. there are scripts which i can implement for a fixed rate. If you're just wanting this to make money, this is great for you! What happens is when a client orders on yours site (our site), the order is proccessed to the site in which the api we set for that service on our site. You make money when users deposit funds on our site.

If you want Admin access, PM me and if I deem you interested enough I will allow access to you.

What will this panel allow me to do ?

This panel will allow users to sign up, choose a service you've created in the admin panel and if they have credits on their account, purchase a service. It will then link to the SMM panel 's API you enter and proceed the order through their API to add it to your database.

This means you can set higher prices than other SMM panel sites and earn profit.

If you're an admin, you can manage everything such as users, api to other SMM panel, products (Insta likes, facebook etc.), reply to support tickets, manage news, manage categories, manage the site and change the theme of the panel!!

Over 5 panel themes included (different shades of blue, grey).

This panel includes a deposit system in which Stripe and Paypal are included.

PM me if you're interested in purchasing this! You will receive .sql and the whole site source.

Only selling this to 4 people for \$50 BTC a copy as this is a high-value panel with many features HUGE services use.

No vouch copies are being given out as this is a HUGE valuable panel and I have a live, working demo up.

Copies sold: 0/4

Here are a ton of pictures so you know what you're getting before you buy:

Are you the creator of this? Because I've seen this panel before a while ago.

I updated this to a PDO panel (PDO is the most secure database connection type), added more functions and edit a few features up to date.

All is working and the panel is hugely customizable.

That doesn't answer the question. Are you the owner of it? Because you cant edit someones work then sell it as your own

I'm not selling it as my own, I haven't stated it's my own. I'm selling it as the owner said I could do what I want with it. When he gave it to me, it was in a scrappy, insecure edition. I re-coded it, spiced it up and am selling it like I bought it (because I can do what I want with it the owner said). Hense I'm giving a limited number of copies out as don't want it abused. I wouldn't sell something that isn't mine without getting permission.

vad0x - November 19, 2018, 10:44 am

ill vouch for anything this guy says. Built me an amazing site!!!

MaxiPads889 - November 19, 2018, 11:24 am

This is originally called levopanel, I've used it for my site for a long time. This guy is a phony.

BenzaHdd - November 19, 2018, 11:24 am

Price lowered to \$50 for Black Friday Deals! Still only selling to 4 people. Once it's gone it's gone!!! Purchase today and get 1 FREE customization.

Mate, check the code in Levopanel and the code in this. There are many differences. Just because it's got the same styling files doesn't mean anything.

I'm offering changes to the source too. Want BTC payment added? Your completely own API created? I can do that. Don't call me a "phony" just because you've looked and seen it looks the same. I've converted the whole source to PDO, added features and fixed minor issues! If you're here to hate, you're in the wrong section.

If you can get this for free then feel free to do so. I'm not stopping you. I'm simply selling it for a reasonable price to what work I've made.

Read all other comments before replying.

There you are actually wrong. this is built nothing like levo. Ive used perfect and levo and this is different

I guess because another site used greyscale with purple, it has to be made from hackforums right?

BenzaHdd - November 20, 2018, 9:06 am

Sales OPEN! \$30 TODAY ONLY! SELLING TO 2 PEOPLE. ONCE IT'S GONE IT'S GONE. BLACK FRIDAY SALE @ \$30 FOR THE PANEL! WITH SUPPORT SETTING IT UP.
