Thread: [Bionic Penises](#)

Bill Gates - November 19, 2018, 2:38 am

A new bionic penis has been made and used by a gentleman who was born without a willy. He had sex for the first time in 45 years.

A new step forward in life like limbs?

Will this be used in the future for transgender peoples who want to turn males?

Go, go, Gadget Robocock!

Modern medical is very impressive to me.

Modern medical is very impressive to me.

Apparently, it cost around 50k for a huge inflatable penis.

If they can do this for a guy, i wonder if the mechanics can be used for trans people wanting to change?

bananachocobo - November 19, 2018, 2:56 am

Well if some people desires it and are willing to shed some cash for it, it certainly will be used in the future.

Almonds - November 19, 2018, 2:59 am

Well, I mean why not.

Good for those without penises.. I tell you that.

Rayner - November 19, 2018, 3:01 am

Wait can he feel anything with this penis?

Bill Gates - November 19, 2018, 3:07 am
