Thread: [\[UPDATED OFTEN\] New Account Progress](#)

Prodigic Son - November 19, 2018, 10:26 am

So in an effort to get back into 07scape, I decided to make a new account and to continue my activity here on the forum I'll be posting my progress as I go. I am only going to play as a free-to-play character for now, as I'm low on funds.

I will be going for base 30s for now, starting with non-combat skills. I've already leveled combat some while testing on mobile. As I progress, my base levels will raise as well.

Health: 14/30

As I achieve goals I will update this thread - I will also be including links to pictures of bigger achievements.

If you'd like to meet up in game, we can do so. Just add my username here. It's the same thing.

Happy Scaping!

I'd take a look at [this guide](#) if you're going to be wanting to complete all quests! It will make it so you dont have to skill as much between quests!!
