Thread: [GREAT MONEY MAKING METHOD FOR TEENS \[EASY MONEY\]](#)

Verma Sharma - November 20, 2018, 9:04 am

Hi everyone,

If you're 13, you might want some income instead of selling lemonade at the streets, here is an excellent way to do this over the internet.

The bytes system in HF is not so complicated;

You get 3 bytes per thread, 1 byte per reply and 0.1 bytes per replies to your thread. That way, you can get bytes simply by posting every day in HF.

Now, the best thing is, that a lot of people in HF are buying bytes for money (Crypto/PayPal), so just grind and post a lot in HF until you get 10k bytes or more. That way you can sell all of them and earn some nice money on the side. Yeah, it will take some work and effort, but at the end of the day you'll get money and it's worth it.

You can also gamble your bytes for a chance to multiply everything, but keep in mind that you can always lose everything and it's super risky, therefore it's not recommended. Just post and grind, don't take any risk of losing bytes.

Tips:

- Always use the contract system
- Never trust anyone
- Don't gamble your bytes

Keep grinding and get some money! ?

Very interesting post, ever seen that method before

But where are people buying bytes in HF?

Allelujah - December 12, 2018, 7:19 pm

If you upgrade you'll earn more bytes per post and thread.

Do tasks offsite for bytes if you're really wanting to rack up the bytes.

SORRIE - January 18, 2019, 12:36 pm

If I make 10 posts per hour, i get 60 bytes. This is 60c an hour. Just watch ads or download apps for \$ at that point lol

Thanks for the free method, but I'd rather keep my bytes if I had a lot of it.
