I would give a really honest and extend review if I decide to make de the purchase.

I truly believe this is the fastest and easiest way to learn to crack, whether you want to sell accounts, or just collect a few free accounts for yourself it is very easy, there are a few hiccups very small, but apart from that i have received amazing support, any questions have been answered, and the guide itself is super easy to follow, already got a family account for spotify!

**Alert** - January 22, 2019, 12:30 am

Yesterday I bought this method. I thought it would not be what it is. Just very much work, search for lists etc.. but NO! It is NOT. It is so easy to get much accounts. I have now 3 family owner accounts and about 10 other premium accounts in not even 3 minutes of waiting. There were some problems, but the support is so great. I am like in shock. I want to give this a +1. Best method ever and even very cheap <3
