"Bitcoin \$3k by end of year."

If it really does go this low, I would be prepared to purchase.

Omni is a beast - 1337 tweets but what's the next goal?

Yin Yang - November 21, 2018, 10:30 am

Which social media platform has worked for you the best?

I personally think FB might be a good option. Twitter is just a meme fest to me.

A + - November 21, 2018, 10:51 am

I've been following it since I joined in 2011. Always a good source for updates when the site is down etc. Keep er going, grats big guy :p

Oran2009 - November 21, 2018, 11:11 am

So... now I need to get to 1337 posts.

Condoms - November 21, 2018, 12:13 pm

Until tomorrow, when it goes 1338, wishing everyone a Happy Thanksgiving.

Facebook is probably a bad option since most people use their real first & last name, when they engage on posts it'd make it easier for other members to dox them.

Also pretty sure Omni hates Facebook, a lot of people do.

Banter - November 21, 2018, 2:01 pm

we need more people to follow the HF twitter

Roytoy - November 21, 2018, 2:38 pm

HackForums.net is the best. I use Twitter for quick tweets to followers and it's also good to post about new features or downtime.

I will never have a Facebook account. If you think Twitter is a meme fest then maybe you should reconsider who you follow.

Correct and I try to keep it pretty lean with about 10-20 tweets a month.

Congrats!

Have you attempted to ever get it verified?
