Thread: [Fancy Suits](#)

Lately I've been obsessed with suits. I've always wanted either a gold or white tuxedo, and I've been buying some pretty nice suits with different patterns and colors for great deals, like \$30 for a suit jacket that originally costs \$300. Anyone else this obsessed with suits, or anything else?

Yeah I love suits, I'd buy all of em expensive ones, but yah low budget, I like black suits, blue suits, white suits are sick, and some pattern suits what are more different. Also Wearing a knit tie looks sick man.

I'd honestly not go with gold suit if you are not black.

Do you wear them though? That's the real question. Cuz if you don't wear them that often then it's kinda useless.

Anyways- i'm a girl so I don't buy suits but I do like elegant clothes. Doesn't mean I buy everything that has a tremendously reduced price.

Don't wear suits for the love of god people, they are hideous and not comfy at all

Why would anyone want a gold or white tuxedo? That is not fashion at all.

I am not obsessed with suits but I could use them, why not?

Get fitted. Don't buy a suit that's not made for you.

"I have a lot money." "What's Gucci?" "What's Versace?"

Ever notice how they're not fit correctly? I wonder what's up with that
