Sui Generis

Sui Generis is a group based around the arts. If you're an artist you will have MUCH better luck getting in if you apply for either [Visual Arts & Graphic Design](#), or for [music](#). However good company from the outside can never hurt I suppose. So this one is open to anyone thats just wants to hang out and talk shit with everyone.

To apply post one good reason why you should be in the group.

I listen to music 24/7, even when writing this post lol.

• **Enlil Wolf** • - November 22, 2018, 10:23 am

Before I begin my application of why I should be in the group, I would like to thank you for giving me ("Witcher / EnlilWolf"), the opportunity to join a group which is catered to something I absolutely love which is Music.

Applicant: "Witcher / EnlilWolf" --- Applying for Sui Generis General

Firstly, a bit about me. I had joined the forums not a while back to figure out ways to make money to supplement my free time into doing something valuable/worthwhile with it. And every single day since then has been quite an experience for me. Instead of doing, what I initially joined the forums for, I found myself drawn to other things instead of making money due to lack of funds to purchase anything.

So I found the next best thing, I found myself drawn to this whole community of diverse and interesting group of people around me. I decided to get to know these people a little bit better. And in doing so - I found some nice, some sarcastic, some highly skilled & intelligent people to begin with. I have met a countless number of people from different fields of life (Rich people, Internet Trolls, Poor students, Ex-Convicts, Passionate enthusiasts to name a few). Of whom I made some good friends already from here, so quite stoked with that as well. I was also able to help a few members here and there.

So while I am enjoying my time spent here, I am also trying to establish myself as a friendly persona around the community who believes in bringing positivity to wherever I go and helping out people along the way. Which brings me to the main reason, I want to join Sui Generis which I will explain below.

To apply, post one good reason on why you should be in the group.

As someone who believes in 'Quality over Quantity' --- 'Bringing Positivity to wherever I go' --- 'Helping People, however, I can' - This speaks a bit about my mentality and it is something I'd love to bring to this group or any future group I'd have the chance to join. I refrain from making shit-quality posts. Whenever I do end up creating threads - I make the effort to engage with each and everyone who responds and personally thank them for sharing their thoughts and engaging in the conversation so they don't feel left out.

As you can judge from this application itself, I have the habit of writing long and in details. Sometimes it's good, sometimes it's not but I always love to keep my feelings open & honest and I love putting myself out there. So if you want to have someone 'Friendly/Positive/Passionate' around the group who is highly engaging with everybody, I'd love nothing more than to be a part of it. Other than that, Music is and always will be something which is very dear to me. As someone who had opted for quite a bit of Solitude periods in my life, while growing up. Music was the only thing which kept me company and enhanced my feelings & emotions in a way I never could experience by talking with somebody. It resonates strongly with my feelings and very often I find myself expressing through music when I am sharing my feelings with someone. Having an open-ear for any type of music which is melodic & soothing to my soul. I am someone who actually believes that 'Music is truly an universal language' and helps connects people with each other.

"Witcher / EnlilWolf" was here.

Regards, your friendly Witcher / Wolf.

Honestly I'm just trying to talk shit and have fun with people, I'm more network security/ whitehat oriented but would be fun to chill with people and have a good time.

Bacardi Cola Lime - December 9, 2018, 5:18 am

I've been doing graphics for over 7 years now. Graphics design was my first from of self-made art. Been doing different kind of work, from simple logos, to forum signatures and video editing.

Of course, graphic design isn't the main reason, I believe, that should get me accepted into the group. My love for photography and talking about it, made me seek for a group of like-minded people with the same interests, where I can discuss with them. Sui Generis looks like a group where I can display and talk about my art and see what others have to show, for sure.

Sheep - December 9, 2018, 3:10 pm

Open to anyone?

I don't have any arts or music skills. I wrote for several small local comic strips about 4 years ago, and I used to be really interested in writing, novels and stories of any kind. Does that count as art?

That said, I love to talk and can provide discussion. I can provide critique from the viewpoint of a consumer rather than a producer. I'm online daily browsing because I have no life, and would love nothing more than another avenue to talk, should a conversation pique my interests.

Also, I'm looking for my first ever group so I can feel as though I belong in the Hf world.

Lemon-Haze - December 18, 2018, 3:17 am

One good reason why I should be in this group:

I might not be a musician or artist, but I fuck very heavily with music. Probably gonna be one of your most active members, and I'm always happy to just chill and talk music or anything really.

Id like to join because I like to think of myself as easy going and friendly

also i'm into graphic design, just currently saving up for a new laptop/pc and I also like to game so having people to play with would be a benefit!

no\$fer7u - December 18, 2018, 6:08 am

i'd like to join because i'm into music and i'd like to learn more and mixing & mastering and i feel like this group could help me. I'd also like to make music with you guys

.irie - December 22, 2018, 4:10 pm

I'd love to join because I am indeed an artist. A musician. I've been playing the piano for about 13 years now with a repertoire including contemporary music (anime openings/songs, movie theme songs) & classical music (Chopin). With these piano skills, I love composing these piano riffs to create beats (mostly lo-fi & hip-hop). My beats are kinda mediocre, but I mean we all start somewhere. Also, I've composed a short piece just recently that'd I like to share in the near future. And well, I come from a musical family so how can I not love and be in to music?

In addition, I don't really consider myself a graphics artist, however, I do have knowledge in Photoshop and Illustrator. I mainly use these to create logos for fun. Never really considered using it to provide services for others (maybe I'll change my mind in the future).

I think I'd be a great fit for Sui Generis! :)

Sooty - December 22, 2018, 7:27 pm

I know you, you know me?

I love being active in debates and group discussions. I'm an avid learner and an active listener. Everything you could ever want!

Sui Generis...

I believe I should be allowed/invited to this community because I am a good artist, I use to be very helpful within the Graphics design section helping people where needed, sadly now I am limited by work. But I am a very active member recently and wanted to get ahead of the game again. with this group I believe I can help out in any shape and form possible with my skills and knowledge.

Vanilla - January 3, 2019, 11:56 am

One good reason why I should be let in is because I can contribute a lot of knowledge. I can teach others a lot about Adobe illustrator and how to use it to make nice logos. I also really like the user bar and would love to use it instead of regular leet user bar. I can also participate a lot in the lounge chat.

Roytoy - January 3, 2019, 12:00 pm

Applicant: [Ms-DOS](#)

First of all, I'm not really a designer. I always want to be one but I'm not talented in this field. But since I'm a web developer I really like designing eye-catching websites. I'm getting inspired but visual artists' designs/mockups and try to code them as an actual website and I'm good at it.

Here are the last 2 websites I coded for myself: -snip- and -snip-

I really care about design, it is the most important part for me in the product.

I really like to talk about design and get inspired, I even spend lots of time on dribble just by exploring what other people have designed.

Lastly, I'm collecting free design resources/useful websites in my public Github repo and I like to share such things with everyone...

That's my application to Sui Generis. I wanted to meet good designers and discuss.

Thanks for the opportunity
