I would advice to watch out when you deal with the user and be extreme carefull.

Thank you for the bump mate! If anyone would like to see the conversation between us be my guest, I messaged him to buy his stock of GP, he told me he didn't know what to think of the b-ratings so I explained it's the new system for HF.. he then said he'd prefer a MM so I get Zexi, after I messaged him back about the MM he went offline, came back about 10 minutes later and said he already sold to someone else that "went first" yet he has 0 rep.. Have a good day..

I've messaged you back mate.

Also, I'd like to point out that BLATANTLY copying my thread and title (<https://hackforums.net/showthread.php?tid=5917206>) isn't against the ToS of HackForums so Lipton (<https://hackforums.net/member.php?action=profile&uid=4048886>) will continue to be an asshat, would like to say deal with extreme caution with this user as he didn't want to go first to me despite the b-rating difference and then when I got a MM (Zexi) he stopped responding and then came back to say it was all sold. Now he has one person vouching for him with 26 posts (<https://hackforums.net/member.php?action=profile&uid=3813280>) that supposedly bought 2B.. right.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
