Looks like a legit dispute. The GC was probably stolen or carded. Hopefully you used a contract?

Zexi - November 22, 2018, 10:08 am

I see so many people around with cancerous AGC. Sorry about your loss bro. :/

lol - November 22, 2018, 8:14 pm

That's so sad, man... Fucking scammers these days. So sorry for your loss =/

Specializer - November 23, 2018, 1:14 am

This guy seemed legit. Exchanged his UK AGC for my BTC a load of times and my account wasn't affected. You bought them right before me, sorry for your loss man. Hopefully he refunds you, doubt it though since he is trying to win the dispute as you said.

7Summers - November 23, 2018, 2:16 am

He says he will refund at some point but he's delaying it on purpose

BlueSynAck - November 24, 2018, 8:42 am

Skull-13 - November 24, 2018, 8:46 am

This is no good at all. Sorry for your loss, OP.

S2K - November 24, 2018, 8:51 am

First of all sorry for your loss, but I don't think so he will scam you for that amount. He may be busy or so, you better be patient. I believe he will solve it

Host - November 24, 2018, 10:10 pm

After reading seems like it's his supplier fault, I'll say be patient this is the risk when you buy gift cards on this site.

So I'm confused, was it carded or was it simply redeemed already? Or is the issue just your account being suspended.

NYANxCAT - November 25, 2018, 9:01 am

That's unfortunate. so you didn't hear anything from this member since 11-22-2018 ??

Considering that is his last sign in... doubt it.

My account is okay, waiting on amazon to explain the situation.

I redeem the code and had the balance for 20/30 mins then it got taken away due to either fraud or whatever.

He said he would refund me but still hasn't.

Damn. Gotta cash out that amazon stuff when you buy it off here. Too many broke skids.

7Summers - November 26, 2018, 8:49 am

He has no intention of giving me a refund it seems, he's telling paypal he rung and my account was the issue. Which it isn't cause I'm not on hold I was just misinformed by the amazon rep

Update: <https://gyazo.com/81d9cde5a498edaae5abc4c98beffd30>

I replied to him soon after and he has been on since and not replied.

He wanted me to close it before sending before refunding.

User is clutching at straws - <https://gyazo.com/c071d51e5d5d94707e9d552c59dd21ee>

This happens sometimes with giftcards,as from where we purchase they dont give receipts.And amazon asks for receipts.Paypal does no allow to buy or sell without receipts,why the hell you told paypal about this. They have now limited my account,thats why i am unable to refund you man. They are asking me receipts which i dont have,kindly close the dispute on paypal and i will refund u instantly.

i accept that i have your 105gbp u send me on paypal.

i am not from those people,who dont refund on problems.

this is my promise and i am an old user who is dealing currencies from a long time.I have always refunded people when this has happened.

this happens normally 5% times out of 100.

you first need to solve the dispute on paypal which was not needed. i would have solve this here

only.

i was travelling and you created problems.

Velma - November 28, 2018, 12:42 pm
