#1 Gold-Farming Guide

LIMITED TIME COUPON 20% OFF "away"

Many people dream about having the ability to simply wake up, do whatever the hell they want all day, and check to see that they've made hundreds of dollars throughout the entire day. I was once one of those people who dreamed about that, but it soon became a reality. In this e-book I will show you what i've learned from a few years of botting, and how I make tens of thousands of dollars simply turning on my computers every day and letting them run by themselves. With the introduction of Runescape Mobile, gold has seen an increase of 30%, making the profit all that much more.

This guide is about Runescape gold-farming, but is not entirely limited to just Runescape. Gold-farming is possible in many MMO's, and if you want to be making 5 figures a month you should be looking to expand to other games.

30+ pages of high quality information.

First of all, I'd like to start by saying this is one of the best money making eBooks I've ever seen, to say the least.

Unlike most of the methods being sold here, this one actually works, and can be highly scaled if you

put in the time and effort every venture should have.

It contains a total of 38 pages filled with high quality information. It's well written and organized, it has very few grammar mistakes and the design is pretty clean.

Overall for the price of \$15 this is a steal, as you will make your money back in no time. I'd give this product a solid 9/10.

BIG VOUCH!

(Nov 27, 2018 10:57 AM)Meow? Wrote: [\[CITE\]](#) OP contacted me a few hours ago asking if I could review his ebook. Here is my review.

Guide is definitely worth the price (\$15/\$25). I recommend going with the Package #2 in case you need any help.

As for the ebook, it is 37 pages long with 'normal' font and no blank pages, fillers or any bs like that.

OP shows how to make money off botting if you're on lower budger and if you have money to invest. If you have money to invest, it's going to be a lot easier and probably faster. However, that is completely optional.

He covers EVERYTHING, from planning everything, investing, which client/tool/app you should use, common mistakes and misconceptions, how to avoid bans, where/how to sell gold, how to avoid getting scammed, etc.

Very very very in-depth and overall great guide, it was a pleasure reading it. At first, I tought it was going to be 'just another ebook' but I realized how serious OP is when he approached me asking if I could review the ebook. It shows just now confident he is in his product.

Some general info:

Ease of use: 4/5

Pretty much everyone can do it, as long as you have PC and internet connection you're good.

Grammar: 5/5

I personally haven't noticed any grammar mistakes (however, English is not my first language). OP took his time writing this and he definitely put in time, work & patience.

If I were to buy this, I would NOT be dissapointed, I would actually charge more for this guide.

Thanks & good luck with selling! ? (Nov 27, 2018 07:55 PM)Alusto Wrote: [\[CITE\]](#) Just got the eBook and I must say it is VERY well written and explains everything well. I've purchased several ebooks here over the years, and the vast majority have been awful. It was

truly refreshing to read something as high quality as this ebook. I read/skimmed through it, and it's packed with tons of great info. This method seems pretty tricky, but with enough practice I see the potential to make thousands monthly here.

Tbh, this ebook should be selling for \$40-50. I highly recommend snagging the second package so you can ask questions if you need to. With the sale it's only \$20 atm the moment which is an absolute steal. I've purchased \$30+ ebooks here that aren't half as good as this.

The only negatives I can think of are:

- 1) Learning curve getting started and making sure your ban rate is low. You probably won't be making too much money at the beginning.
- 2) Start-up costs seem a little steeper than mentioned in the OP. Things are cheap when you're just getting a feel for how to execute the method, but if you want to make some bigger profits and scale things up, it's going to cost you.

Overall, very well done. I intend to dissect this ebook and dive into gold farming over the holidays. I'll be sure to post an update of my profits in the future. ?

[Frequently Asked Questions]

Q: How much can I realistically make?

A: Very common questions beginners have. No, this is not a method where you will be making \$5,000 a month instantly. But after a few weeks of learning, it is not crazy to make \$1,000-\$3,000 a month for roughly 30 minutes of effort per day

Q: How much do I need to invest?

A: This is entirely up to you, if you want to invest maybe \$30 into some simpler scripts, it is not a bad idea to do that. Once you have picked up momentum and want to increase your profits, you can invest larger amounts into much more advanced scripts.

Q: How much have you made from gold-farming?

A: By far the most common question I have ever been asked. From starting in my second year of highschool, I have made slightly more than \$60,000 from Runescape. I'm currently a sophomore in University. Keep in mind, for the majority of time I was not making much money as I was brand new to OSRS when I returned.

Monthly costs can be very low, you would necessarily only pay \$2.50 for 14 days of membership and could run a free script on a few accounts, there's a possibility to earn like \$100-200 a month with a \$2 investment, but the more you invest the larger your returns will be. All necessary info about investments is included in the guide

I'm skeptical, when I was gold farming it was (even with paid scripts and private proxies/vps and resting) hard to bot an account though the tutorial island yet alone get the required QP for free trade, I'd be lucky to get 2-3 hours out of a single F2P account.

Is the method F2P or can it be performed F2P with upscaling or do you expect an initial investment on memberships, vps, scrips to prevent the instant ban hammer? Does this method also contain money making methods that can be upscaled with the premium scripts to match?

Thanks,

Thanks,

It'll show you tips to avoid getting banned so early on, and how to reduce your overall ban rate. This does include money making methods that I personally recommend, they all follow the guideline of decent money per hour, and not the longest time to create.

F2P botting is not a good idea currently, it is nearly impossible to do.

As for experience, I would reccomend watching a video or two about Runescape then maybe playing a bit, it's a really basic game and easy to get your heard around. I hadn't played since around 6th grade then came back when the new version of Runescape was out, was not long at all until I had the hang of things.

There are scripts that can be used to level your accounts for you. For example, you can do a minimal amount of work yourself then turn on a combat script, and then you can level up the account to whichever stats you want. You could then open up starter account shops on more Runescape related places and make a nice profit. I don't have a place that I tell you to go in the guide, but I can help you find them if you have questions

How long does an account last before its banned? How much can 1 account earn a day?

on WoW start up costs were very high aswell as the BOT was very expensive and new accounts aswell were expensive and took atleast 2 days to level up. How many days does it take from making the account to get it to actually produce gold.

I already know many people who buy RS gold as they were my previous buyers for WoW and so I am very interested in this, just want to get as much informaiton as I can because Ive never really played or tried RS but know it has some of the highest returns on gold botting :)

Largely depends on where you bot. Accounts that are a bit more complicated to create, Wyvern bots for example, can generate \$20+ a day and can go undetected for months. Zulrah is also very similar, and i've had accounts that have generated \$20-35/day.

thats true but zulrah is heavily botwatched (weath manually increased botwatch there) and wyvers are 72 slayer, which doesnt have a bot on the client I use (But im sure a slayer script exists)

Many people still bot zulrah, and yes wyverns are 72 slayer but we've had bots last months there. If you go check there now, it won't take you long to find a bot that's base 95 melee's to even maxed accounts.

I have many methods listed, none too in-depth but I can always help you find guides on methods that interest you. I would never recommend someone that is just starting to start making accounts to bot wyverns, but you should build yourself up to that point.

Bought this guide last night and it's very informative and walks you through every single step. I've never botted anything in my life except FarmVille back in like 2010 and I feel like I may be able to do it with just a little trial and error. Hopefully.

LIMITED TIME COUPON 20% OFF "away"

Many people dream about having the ability to simply wake up, do whatever the hell they want all day, and check to see that they've made hundreds of dollars throughout the entire day. I was once one of those people who dreamed about that, but it soon became a reality. In this e-book I will show you what i've learned from a few years of botting, and how I make tens of thousands of dollars simply turning on my computers every day and letting them run by themselves. With the introduction of Runescape Mobile, gold has seen an increase of 30%, making the profit all that much more.

This guide is about Runescape gold-farming, but is not entirely limited to just Runescape. Gold-farming is possible in many MMO's, and if you want to be making 5 figures a month you should be looking to expand to other games.

[[b]Frequently Asked Questions]

Q: How much can I realistically make?

A: Very common questions beginners have. No, this is not a method where you will be making \$5,000 a month instantly. But after a few weeks of learning, it is not crazy to make \$1,000-\$3,000 a month for roughly 30 minutes of effort per day

Q: How much do I need to invest?

A: This is entirely up to you, if you want to invest maybe \$30 into some simpler scripts, it is not a bad idea to do that. Once you have picked up momentum and want to increase your profits, you can invest larger amounts into much more advanced scripts.

Q: How much have you made from gold-farming?

A: By far the most common question I have ever been asked. From starting in my second year of highschool, I have made slightly more than \$60,000 from Runescape. I'm currently a sophomore in University. Keep in mind, for the majority of time I was not making much money as I was brand new to OSRS when I returned.[/b]

> Claims to be getting 10,000 per month but his best screenshot is of a \$1k payment.

Please, can you verify where you are claiming to earn 10,000 per month because everything so far shows nothing near 10k? You have made that number up because there is not a single photo that shows you earning 10,000k, even over multiple payments and if you were making 10,000k per month why would you need to sell this for \$25. Surely a method that makes you 10,000 per month is worth more than \$25?

Hmmm.

I'll tell you what big boi - instead of paying you \$25 ONCE how about you confirm I can earn 10,000k and for the first two months, all my earnings go to you? Surely \$20,000 is worth more than \$25 to you, or are you not good with numbers?

I await your response, if you turn down \$20,000 for \$25 then it just shows your method is not profitable.

Where did you get the figure of \$10,000 per month / how was this calculated & what makes you authorised to answer these questions? It was my assumption that the creator should answer these - he ignored the opportunity to answer when I initially asked and now I have serious concerns about exaggerated numbers

Have you purchased the book yourself? How much have you made? How close are you to making \$10,000 per month?

I wouldn't recommend this E-book to anyone. This E-book got answers you can all find really easily on the internet. If you're a young person who have no experience with the internet I would recommend the basic version which have some answers you can use.

Furthermore when asking him questions he answers them really late and on the most global way possible.

Quote:My question: What should be the maximum accounts I bot on 1 proxy? Quote:1 day later: you you should stick to 1 acc/proxy if you want to be safe

The title of this post is also how he makes \$10000 a month but in the E-book you can't find any of that back. He just makes up some numbers adding it together and then you do the math yourself.

2/10 from me.

You can find the answers online right? Yet you asked me some of the most obvious questions.

Not sure what you mean by "answering questions really late" I either responded instantly to you, or within 90 minutes. Sorry buddy but we all don't stay home all day.

Almost every single question, if not everything you asked, could be found directly in the e-book.
