Thread: [Need someone to write a EASY essay](#)

Spotlight - November 24, 2018, 5:04 pm

Okay, so it's a super easy essay, just dont have time to do it and its due tomorrow by 7 PM EST.

It needs to be 3 pages long, but the topic is super easy.

You can do either of the following:

1. Describe DoS and DDoS attacks
2. Social engineering: what is it?, examples, and prevention.
3. What is two-factor authentication?
4. Phishing: what is it?, examples, and prevention
5. What security vulnerabilities does Bluetooth technology pose?

If you'd like to do this, send me your price and i'll send you the exact details.

Literally 3 pages of easy topics pretty much everyone on here knows about.

This is for college class CIS.

Anyone wanna do this? Need it done in 7 hours. Easy topics

I Can do that for you let me know if you're still interested

Blogger - November 27, 2018, 12:06 pm

It was due on the 25th. I'm pretty sure he no longer needs this.
