Thread: [Theocritus' Ebook Review for ".luci's Private Method" by .luci](#)

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [==>\[2000\\$/MONTH\] MY PERSONAL PRIVATE METHOD | 100% EARN OR REFUND | 1-ON-1 SUPPORT](#) by ".luci"

This eBook consist of 1 main method and 3 pages as well as a few extras.

The grammar of this eBook is overall good without too many errors. The structure is also decent.

What is included in this product bundle is the main 3 page eBook as well as another 2-page bonus eBook both about the same overall niche. There is also a 7-page bonus eBook with another known method overall and a single page bonus txt with some potential. Without beating around the bush this product is all about the CPA niche and how to profit from it. The main eBook will tell you a site you can use to find offers to make money with, as well as general tips and guidance on how you can start earning with the said offer(s). as said, you are taught in general how you can approach making money in this niche and do it without too much effort. The problem I have with the eBook overall is that it just lacks detail in my opinion. I mean yes, you are told fairly well how you can set things up and start earning, but I just feel like a lot more information could have been put in here. It also doesn't help that there are no screenshot examples etc. either. You are told enough details so that you should be able to start earning at the very least, but if you are someone that needs your hand held throughout the entire process you may need extra support from OP for that.

It should of course also be mentioned that this is far from an original method/approach at all here on HF. These sorts of methods have been around a while and I have seen these on a decent number of occasions in other eBooks as well in the past here on HF. Some of them in much greater detail than this as well.

The 2-page bonus eBook doesn't include much except another site you can use and an example offer you can take advantage of and hopefully make money with. It's nice that the bonus is there at the very least, as you do get another idea of how you can earn money with different sorts of offers.

You are also given some barebones "how to get accepted" txt files in case you have trouble getting accepted into the sites you are to use to make money with.

The 7-page bonus eBook contains another widely spread and overall known method on how to make money from HF as well as similar sites. It's nice that this bonus is included but it doesn't really add much value at all. The single page txt bonus has some potential but could use a lot more in-depth and proper explanation as it is horribly barebones as is.

When it comes to how much money you can make with this, I mean, the sky is the limit as with a lot of these sorts of methods. The setup time to start earning should not take you long at all, and you should be able to get your first payouts fairly quickly depending on the site(s) you use.

Final Thoughts

The main issue I have with this eBook is that for \$50 I have really seen a good number of other eBooks provide much more value and content at the same price as this as well as a good bit lower. There is also no unique selling point to this eBook, as the method is nothing new, and as said already exists in other eBooks on here. With all that in mind, it's hard to justify paying \$50 for this eBook when I have seen multiple other eBooks with more content, detail and better structure at not only the same price point but as low as \$25 in some cases. Due to this, I would say this eBook is for the uniquely interested only and if you have more than enough money to spend.
