Thread: [iBuyPower Gaming PC \(i7, 16gb Ram and a Nvidia GTX 1060\)](#)

SexWax - November 24, 2018, 8:05 pm

This listing is for an iBuyPower Gaming Desktop with LED lights and I have added a Corsair liquid cooler too it. It has only been used for about 6 months now and I have only used it a few times a week.

-SPECS-

Intel i7 8th Gen

16GB DDR4 Ram

120GB SSD

1TB HDD

NVIDIA GeForce 1060

It comes with a Logitech G150 Gaming Keyboard, the tower and power cord.

It also comes with Windows 10 fully activated home edition.

If you have any questions or concerns, please feel free to message me.

All deals will be done through eBay or PayPal invoice.

All at once if possible.

Dextral - November 26, 2018, 12:01 pm

I will drop an offer of 500, looks like a solid machine.

Triangle Eye - November 26, 2018, 12:18 pm

World wide shipment?
I assume not right?

Yes, but not free. USA is free shipping, but worldwide depends on how much it will be.

WageWolf - November 26, 2018, 12:48 pm

Good luck with sales, looks like a pretty nice tower! :)

Thanks, it's still for sale.

Still for sale, hit me up with some offers.

Lol people under balling you hard as fuck. The \$700 price tag is a steal in itself, would try ebay if I were you though. GLWS

I offer 600\$

Riddick - November 28, 2018, 1:00 pm

I know the guy above offered 600, but I'm willing to offer \$500 in Bitcoin if that makes a difference to you. Or I could exchange my BTC for Ethereum and send you ETH instead if you want. It would require world wide shipping, which of course I will pay for but via alternative means.
