I won't be working for anything below 1000\$ Keep in mind this is not the typical web development service you will find on HF. When you order from me you will be delivered with the most sophisticated solution available as of now.

CS graduate + Masters degree in Algorithms and Complexity for Large Scale Systems.

Fast and efficient web sites deployment

Exception handling and pedantic error checking

Use of the last stable version for every tool

Html, CSS , JavaScript, PHP ,mysql and anything it may needed .

Accepting cryptos only , bank tranfer or WU available for large projects.
