Thread: [Imposter on discord](#)

Zexi - November 26, 2018, 5:05 am

There is a imposter on discord trying to scam users right now.

I dont do deals over discord, ALWAYS open a contract with me and only do deals with me via pm. Don't get scammed by fucking dickheads like this.

Note* I never ever fucking sell BTC for Paypal. :)

I think this might be the mf that more than 6 months ago scammed my cs:go keys,if it's the well-know "Greek CE Scammer"

How many account does he have lol

I don't know his full history on the forum, but he could be even still active on his OG account till this day and thats how he's up to date with everything. Then he goes to make a new separate identity as the "CE Greek scammer"
