Thread: [Knowledgebase remake | Easy task for €€ \[Article writing\]](#)

Hei?eke? - December 1, 2018, 10:08 am

I'm in need of one or multiple people to enhance my knowledge base.

The knowledgebase is created in WordPress so you will need some experience with WordPress. Most of the articles are already made, so this is just a cleanup work for most of the articles.

what I'm looking for of skills: Able to test the different apps and etc we have in our guides and make great articles with images and etc.

Great grammar for the articles, Grammarly would most likely help as an add-on.

Should be known with how WordPress articles work.

Good structure on the articles with informative information and images for each step.

Payment: Will be in bitcoins per article, you can probably do 10-20+ articles in an hour. All depending on how fast you work.

Payment will be made after each article is complete, or as a package deal, we do payments after x-articles.

Here are a few previews of articles that are in the knowledgebase now:

<https://i.imgur.com/uXgexUo.png>

The apps need images and better structure.

Send me a private message if you are interested and we can discuss further.

I can do this for you. I have both WordPress and writing knowledge. Grammarly isn't necessary for me. Are you just looking for a more professional looking knowledge base? Is one of your goals to lengthen the articles? PM me details.
