Thread: [The most users online at one time was 9,970 on 11-19-2018](#)

Mr. Robot - December 2, 2018, 2:57 pm

So I didn't even see when this happened.

The old record was like 2/3rds of that - insane we beat it in the last month - good going guys.

(not tryna say my video helped but it has 3k views and was uploaded 4 days before the new record)

<https://www.youtube.com/watch?v=RIpoEAuv8vg>

The day before the record was made.

11-18-2018

The most users online at one time was 5,864 on 09-27-2016 at 10:10 AM

<https://web.archive.org/web/20181118085115/https://hackforums.net/>

As of me making this post there have been 10,560 members sign up to HF since 19/11/2018

There were 760 new users on the 19/11/2018 (they aren't included in the 10,560)

10,560 members / 14 days = 754.285714286 new users per day roughly since that day.

Gerymc - December 2, 2018, 4:30 pm

Was that you speaking in the video? What is your native language?

Oran2009 - December 2, 2018, 4:38 pm

Haha... but was there any event or something that triggered that many users?

Blogger - December 2, 2018, 5:04 pm

I like that video. Don't think it was the reason for the sudden influx in visitors though.

Ram - December 2, 2018, 5:13 pm

Did we get bottled that day or it was for real? 10k seems unbelievable.

Well that is unfortunate. Should get Omni to reset that counter - then make a plugin that alerts people whenever we reach over 1k people online at a time.

:)
