Thread: [Vendor Group Feature](#)

Omniscient - December 4, 2018, 5:44 pm

We are beginning our work now to improve Vendor group features.

Our latest work is a Vendor Profile Page.

Simple Example:

<https://hackforums.net/marketcp.php?action=vendor&uid=1>

Vendors get extra controls in their Market CP to edit their own Vendor profile page. It includes Marketplace thread listings and an editable profile with MyCode. Complex setup of a sellers page is very possible similar to a sellers thread.

The features is only for Vendors and I will be doing lots more to incorporate features for the group.

This is existing Vendor release thread:

<https://hackforums.net/showthread.php?tid=5886079>

An official Vendor application page is coming but for now if you're interested you can PM me. Please note that it's a \$100 BTC fee to join the group.

This is awesome! I have been waiting for this. ?

The Vendor Profile Page looks nice too. The chart showing the split of feedback is neat.

Nice work.

I hope people are still vetted even with the \$100 payment

SIM-1097664 - December 4, 2018, 5:48 pm

Looks very interesting, will check out more once I'm not on mobile

Pyro - December 4, 2018, 5:48 pm

This business rating chart looks awesome !!

The business rating chart is incredible. Loving the direction. ?

Cameron - December 4, 2018, 6:00 pm

Would love to get Vendor status one day. Looking forward to seeing the new features that roll out over the coming weeks.

Good stuff guys.

The vendor group sounds like it's shaping out to be something really cool, it's too bad that I'm no longer doing business here. Maybe in the future new opportunities will arise and I'll have a chance to check it out. Good work.

Banter - December 4, 2018, 6:01 pm

this looks awesome the B rating chart looks very smart and user friendly always nice to have a visual representation on something.

the Vendor group is awesome, if i sold enough on here i would grab this but for sure this is a must for anyone who deals alot in the market place!

We were going for a clean page that focuses on the Vendor's content. ?

iNviZ - December 4, 2018, 6:06 pm

I'm really enjoying Vendor, and like all the new additions.

Yeah, the two of you did a great job. The chart really sets it off!

I'm piecing together some content now and diving in.

Dan - December 4, 2018, 6:12 pm

I like it. A slim version of the market profile would be a nice widget under/over marketplace threads.

Is this a part of a bigger marketplace plan?

Ram - December 4, 2018, 6:13 pm

I always wondered the price now I finally know. Btw when you join is the membership for lifetime for 100\$?

I'm loving the vendor page. What other features do we get?

Cyber - December 4, 2018, 6:18 pm

Holy crap, that looks very clean lol. Keep up the great work guys, although I do not sell anything at the moment this is a very useful feature to those of hack forums.

Yin Yang - December 4, 2018, 6:31 pm

Pretty dope feature right here

Should be uid =1

Wonder if the vendors group will have access to a certain part of the APIv2 for contracts.

Thanks. I researched several chart libraries and that is the one I decided on using.

S2K - December 5, 2018, 12:11 pm

Cool updates, to be honest I don't like the userbar of the group

Roytoy - December 5, 2018, 12:14 pm

This is interesting. I like the idea of HF becoming more marketplace related. Eager to see if this will give an advantage to certain sellers or not.

Juffar - December 5, 2018, 12:58 pm

Awesome to see new features for Vendor!

That's the same one Adam used for his HFX script, right?

No clue. I don't use his scripts. I only use my own. I am the member that brought the entire userscript scene to HF, you know, back in 2011. ?

It looks clean as fuck.

But yeah, it's the same one he uses for the reputation graph. Thought it looked familiar.

I actually made a Chrome extension back in 2012 I believe. I didn't like doing that though. I prefer the ease of use and openness of userscripts.

(Dec 5, 2018 04:07 PM)xadamxk Wrote: [\[CITE\]](#) It is actually.

Omni had asked which library I used a few weeks ago.

Did he? I just did my independent research and came to that library on my own.

iirc, a user made an extension in 2012 for giveaways. That's what got me interested in scripts. Then I found you and snorlax's archives ?

It was for the text replacement. I had one where certain text typed would turn into something else. Helped for canned responses and stuff like that.

I remember this, was hella useful. I came across it in 2013/2014 when I started getting active on the site.

Don't remember if it was from your thread or someone elses, but those canned macros were very useful

the mini mods had stuff like [helpdocs] for a canned message about reading the [Help Docs](#)

SIM-403479 - December 5, 2018, 3:25 pm

This looks like an awesome addition! Keep up the solid work guys.

Omniscient - December 5, 2018, 5:23 pm

@xadamxk, I did ask you what you used because I liked how you did charts.

I mentioned to Xerotic that we should consider more charts and graphs and he was thinking the same. What libs he chose was up to him but I didn't mention you to him.

Evanescent - December 7, 2018, 12:55 am

So far looking great but a little expensive when compared to ep1c which we had.

BTW can someone gift V3nd0r to others who qualify?

Evanescent - December 7, 2018, 2:20 am

(Dec 7, 2018 02:24 AM)Bromden Wrote: [\[CITE\]](#) In no way was V3ndor supposed to be a fill in for 3pic, that's a ridiculous thought.

It literally has x50 the features 3pic had, and 100\$ seems like a great price point to me, Ill be picking up the V3ndor rank soon hopefully.

Yeah but 3p1c was also related to marketplace (like checking trust scan before dealing, more PM space, more characters per post etc).

Of course some people will buy it at this price but not all. I just searched and found out that he'll consider discounts to v3ndors(don't know if he was talking about usergroup purchase discounts or something else).

I'm assuming it will all be market related stuff, so stickies, sales tags, etc.

Bacardi Cola Lime - December 7, 2018, 3:39 am

It is nice to see the official marketplace oriented group getting feature like that. I consider Vendors serious entrepreneurs and every tool like that is extremely helpful.

Thank you for adding more more features to the site!!!

Triangle Eye - December 7, 2018, 10:38 am

Excited to see how the vendor group will develop overtime, i see great features already, awesome idea tho hence why i joined the vendor group.

Very cool feature btw the Market Profile:
