Thread: [Community Alert for User #Skyline | UID = 2667861 | False Advertisement](#)

Marketing - December 4, 2018, 7:26 pm

User:

[#Skyline?](#)

Why am I opening this community Alert?

The user [#Skyline?](#) is selling a product in the marketplace

[CRACKATTACK - MULTI CRACKER - PROXY SCRAPER - IG/RS/REDDIT/MEGA/NETFLIX + MANY MORE!](#) that advertises to be able to have features to crack accounts.

The choices advertised are as follows:

Instagram

Twitter

Twitch

Skype

Reddit

MediaFire

Runescape

Spotify

Minecraft

Roblox

Netflix

Megaupload

The actual available choices:

I've requested a refund and this is the response I've received

\$30 ETH down the drain from false advertising, I'd open a deal dispute; but there wasn't a contract opened for the order because I TRUSTED that this user with a reputation like his - wouldn't false advertise. Thus, the community should understand the risks of doing business with the sketchy business etiquette of this user.

SIM-1097664 - December 4, 2018, 7:42 pm

That's pretty shitty, that's less than half of the advertised products

grahammiranda13 - December 4, 2018, 7:50 pm

I agree. A refund should be given. @mysocialboosts I love your products (website) and use it all the time so this is with Respect and understanding but: His Thread has a 5 minutes video of the product did you not see it before buying it?

Again: I am on mysocialboosts's side. But just saying.

Vyxn - December 4, 2018, 7:50 pm

I think he said to add those modules and push an update. I saw it before there's a thread design.

Don't trust reputations on this forum but it's not like Omni has been saying this since day one or anything. Oooooo well, at least that mistake didn't cost you \$30. lol ? ? ?

Mitlar - December 4, 2018, 8:06 pm

Very shitty of skyline to do this honestly its only \$30 and his entire reputation is on stake. Additionally, his response "sorry I didn't update" is funny as fuck. probably linked to the fact that his coder still hasn't resolved his deal dispute with someone:

I agree, the amount of false advertisement in the marketplace is scary. For future reference, ask many more questions prior to purchase. Thread designs are vague and misleading so it's always good to get the fine details before pulling the trigger.

reBELLyus - December 4, 2018, 8:11 pm

I think there may be some confusion here. Skyline is all around a good guy but I will admit, something is not jiving.

But the noobs eat thread designs up like a fat kid with cake. Apparently, stuff needs to be pretty to work.

Yeah unfortunately.. Like I said, people just need to be slightly more aware of what they are purchasing rather than just assuming based off thread design.

PerfectStorm - December 4, 2018, 8:29 pm

I guess a refund should be in order here. Hopefully he resolves it.

• **Enlil Wolf** • - December 4, 2018, 8:32 pm

Well, he is a reputed member and giving back \$30 won't make him any poorer. And as PerfectStorm quoted above, hope you get it resolved soon.

Regards, Wolf ?

Ramsey - December 4, 2018, 8:35 pm

Sorry for the loss buddy. Hopefully you get refunded

Pronouncer - December 4, 2018, 8:45 pm

Dont worry, i will talk to skyline and get this sorted out.

#Skyline - December 4, 2018, 8:58 pm

Yeah gotta update GFX. Wish was more time in the day for me.

And of course refund sir.

He resolved the dispute. He is a busy guy so it is understandable but you're right, it should not have come to this.

It has been fixed, however.

Seems like something Skyline needs to fix ASAP, even if it's simply a warning on his thread that the graphic is now incorrect. There is also text in the title that references Netflix, and I don't see Netflix as an available option in OP's screenshot.

I see it as an honest mistake, applications change and getting your thread design remade is a pain, that's why I never used them(my text threads always looked better anyways :P). However, it is something that should be fixed ASAP before others are mislead by it.
