THE SKYPE USERNAME BELOW IS A SCAMMER

The Skype username: apexofficial_

THE SKYPE USERNAME ABOVE IS A SCAMMER

MY REAL SKYPE IS: live:iamsoftbutfirm

User messaged me on Skype impersonating Bear. Bear's warning thread here - <https://hackforums.net/showthread.php?tid=5915521>

EDIT: User is continuing to impersonate other members - <https://hackforums.net/showthread.php?tid=5893552&pid=57972068#pid57972068>

EDIT: User is still impersonating more members - <https://hackforums.net/showthread.php?tid=5889202&pid=57984917#pid57984917>

EDIT: And another here - <https://hackforums.net/showthread.php?tid=5919628&pid=58030500#pid58030500>

EDIT: Yet another here - <https://hackforums.net/showthread.php?tid=5923849&pid=58076463#pid58076463>

I didn't know it was an impersonator at the time since me and Bear had talked earlier in the evening about an exchange via PM, so I thought it was just him adding me to talk more. Luckily I do everything through the contract system and the real Bear didn't accept it so I never sent anything. Again, at the time, this was made to look like Bear, not me.

I checked the Skype profile again today and he has copied my HF picture and put my thread name as his bio

Again:

1. The Skype " apexofficial_ " IS A SCAMMER, DO NOT DEAL
2. My real Skype is " live:iamsoftbutfirm " which is also on my exchange thread
3. I use Skype for faster and easier communication. Even if we are talking on Skype, I always use a contract and encourage PM verification as well.
4. If somebody adds you and wants you to exchange without a contract, DO NOT DEAL WITH THEM. They are probably trying to scam you.

5. Always confirm a users identity by making a contract with them and waiting for them to accept. Also, send them a PM on here with a secret random code like "H8KHT5D4" and ask them to copy the code into the Skype chat to verify they are the account owner.

Thanks and stay safe ?

Just bumping this, user continues to impersonate other members.

Latest here: <https://hackforums.net/showthread.php?tid=5889202&pid=57984917#pid57984917>

Closing the thread since the user is no longer impersonating me.

Skype name " apexofficial_ " will scam you, do not deal
