Young gratitude!

I am very happy with my purchase, worth every penny and I will arrange other customers for you (I want discounts).

It worked perfectly, it is stable and perfect!

PS: I bought the pro ninja package

He's my sub supplier, so this guy is a pro with his service.
I vouch him. The one who helped me to earn money online.

Apester - December 6, 2018, 8:41 am

Before buying from this guy, you have to know that the person who made this is not a legit deal, and i was the maker fo the website but i got rippd off and the only way i got my right back is by a long dispute, BUYERS BEWARE!

Light Of Xeris - December 6, 2018, 7:01 pm

Vouching for this guy, he's really helpful when issues happen, i had some delays and troubles he spent time to walk me through them and even reissue new keys when they didn't appear to work. Yes I vouch for him :)

So your first two vouches are from

- 1, an account made SPECIFICALLY to ONLY vouch on your old thread, then never came back until to comment on this one too. Obv fake.
- 2, the second account is actually completely new and was made JUST to vouch.

Nothing comes up in trust scan but youve jumped from making bots, to selling services, to making more bots. You have an alt account for yourself on these forums which you admitted to on discord long ago.

Inb4 "They signed up cause I asked them to" Even if that were the case, they have no bearing as vouches since theyre only here to make you look better. GLWS I suppose.

****Anyone who can check trust scan also will see what Im talking about. Tsk tsk ?**

Relieved a vouch code from the NinjaViews Team, I can vouch and say everything is working as it should. Gained ~50 Followers with the StarterNinja Package.

Around ~200 Followers, chat bot works great too!

I'd suggest anyone who is in the market for a web-based twitch view bot to highly consider this one. I'd say it has one of the better price ranges especially for the features and stability you get.

I know this person, i'm on a scam watch on him, this dude is a selective scammer, if i didn't search for his old accounts, him and threaten him he would have never answered my messages or payed me a cheap price for the website i made.
