Thread: [Scam report: Fzsix 250\\$](#)

Flaxman - December 5, 2018, 11:03 am

Hello HF. I recently got scammed by this user Fzsix. I was promised 70 crypto related bots and a crypt FUD. He has delivered the crypt but not the bots, which I was mostly interested in.

Here is a picture of him saying he was gonna deliver them by midnight and I should file a dispute if he didn't: <https://gyazo.com/2bd477f6b477a5c5f447f30559f16f68>

And here is a picture of him giving me 2 fresh ones "VM Bots"

I hope this guy gets banned so he cannot scam someone else.

And the time is over ? May be you should wait for some more hours and you have not even used the contract system , I don't think anyone will support you :(

Sorry for your loss !!

Hello sir, what is the contract? I have been off HF for a while. This guy is acting like a baby coming with excuses and shit like a child. If a mod allows him to sell shit here I really can't see where this forum has went.

You should be patient. Also without a contract link it is not a valid scam report I'm afraid

PerfectStorm - December 5, 2018, 12:31 pm

Ah he went to sleep? are you really that impatient ?

And you need a contract or dispute invalid.

still I will recommend you to wait for some more hours , I hope He will resolve the problem and from next time always use the contract system while dealing with anyone .

So I can scam how I want to without the contract? I infact didn't know the contract even existed, since this must be somthing new here on HF.

You can tell the user who scammed you has something to hide when he has over 80+ different login IPs.

Multiple accounts, probably.

I also had to create a contract...

Very careful with Fzsix, you sell a method SATURATED, will try to INFECT you and of course do NOT REIMBURSE.

The positive reviews are from your partners and other customers to whom you offer your other free ebooks or something else.

There are screenshots that prove what I say:

Take this seriously and do not let it deceive you or manipulate you with your good words and your ticks.

Fzsix, usted vende un método SATURADO, intentará INFECTARLO y, por supuesto, NO REEMBOLSAR.

Los comentarios positivos provienen de sus socios y otros clientes a los que ofrece sus otros libros electrónicos gratuitos u otra cosa.

Hay capturas de pantalla que demuestran lo que digo:

Tome esto en serio y no deja que te engañe o te manipule con tus buenas palabras y tus garrapatas.

And now you suddenly speaking another language. I give up lmao.

I have looked at multiple ebooks from him and they don't seem saturated.

If you were delivered bots from Windows loader by Daz he likely just resold you from Pink Panthers botshop because thats majority of his source.. I was going to buy from this guy but he couldn't show me any proof of his bots so I opted out. Glad I didn't now.

How do you know its the majority of his source?

I didn't mean it's the majority of Fzsix source - I don't even know Fzsix, I meant the majority of Pink Panthers source is Windows Loader by Daz because I bought thousands of bots from Panthers shop and I constantly see bots coming from binded windows 7 loader.

Take this seriously and do not let it deceive you or manipulate you with your good words and your ticks.

I understand that you defend it, if in one of its main methods it recommends using your macro exploit service.
