I used to play this game when I was younger, it was pretty fun. I spent most of my time in the arcade playing slots.

I love Towns, and their version of blackjack, and FISHING. Slots was okay, but I made serious gold playing "21" I believe it was called. The site is still around and pretty active, but it's currency is massively inflated, and everyone plays with real \$\$\$ now.

I only ever used the forums, even as a kid I thought that the games were boring.
