Thread: [||Chick-Fil-A All Menu Items|| Cheap - Reliable - Mobile Support](#)

Mitch - December 6, 2018, 2:15 pm

Hello Hackforums! I am back with some more Chick-Fil-A rewards! Had to take a break for a few months due to some real life situations. But I am back and ready to serve more chicken! This time around I am selling rewards though the Chick-Fil-A app.

How does this work?

1. PM me with the items you would like to purchase
2. Let me know the email linked to your Chick-Fil-A app
3. I will send the rewards straight to your app!

Is there any risk?

Nope! There is no risk of these coupons being invalid! You can use as many as you would like in a single order.

Can I use this anywhere?

You can not use these codes at Chick-Fil-A express locations, such as in a mall or on a college campus. You can use these at any store that allows mobile ordering.

Payment Methods Accepted:

- Venmo
- PayPal
- CashApp
- BTC, LTC, ETH, ETC, ZRX, BAT

Before You Purchase, please make sure you have the chick-fil-a app downloaded to your phone and have an account.

To Purchase:

1. Click the contract link below
2. PM me on Hackforums or Selly with the following information:
 - Which items you would like to purchase
 - Payment method
 - Email address linked to your app
3. I will send you payment information and you will receive your rewards!

Offering any vouch copies?

Lavish Living - December 6, 2018, 2:27 pm

Didn't you have a sales thread already? Why open a new one?

I may reach out to you instead of Minesweeper, your prices are a tad bit cheaper (intentionally obviously huh) :p

Reaper- - December 6, 2018, 2:32 pm

Posting to come back later hungry

Im trying to get more of that in stock. Once I have enough I will update the thread with the rest of the items ?

Cryptic™ - December 7, 2018, 9:13 pm

Damn now another guy selling CFA coupons. Hopefully these don't get too saturated and get patched by CFA.

Mitch - December 8, 2018, 11:01 am

Having an issue, will re-open the thread when I fix :D

Mitch - December 18, 2018, 12:05 pm

I bought 7, used 3.

Went to use more today and they were telling me they were used already.

I looked at date purchased from email and they were used before I bought (the manager told me the exact date they were used)

I'm disputing the payment if this isn't resolved within 24 hours. This is beyond unprofessional.

Not sure what happened, nor can I really assume that they did it on purpose. I will say that the QR codes work and that you need to make sure you mention its supposed to be free as sometimes in drive thru they will assume its rewards.

Yeah, man, we added a disclaimer about sales trashing after the fact. Actually, the way we obtain them makes it so that we are the only people that have access to the code. It sends directly to us. ? So there's actually no chance of them already being used at all. That the situation with lindor was a weird one that won't actually happen. ?

Vanilla - January 19, 2019, 7:23 pm

What's the process for using these QR codes? Is it in the app or in the store that I'd use them?

Would I be able to use more than one at a time?

Don't really know what you mean by they didn't work. But on your email confirmation of the order, there should be a button that says contact seller. Go ahead and hit that button and it'll send us your order info and it'll let you type in your message to us on which codes didn't work and we will take a look at it.

Yeah cheaper chick fil a. Each code gives you a free sandwich which is like \$3.25-3.60

This is an interesting product and has really sparked up during the past few months. Chick-Fil-A isn't established in Sweden but I'm generally curious about what their sandwiches are made out of? Looks like nothing but a boring bun with a piece of chigen to me but I assume it tastes good either way?

ASLR - January 31, 2019, 11:40 am

Are they easy to use in the drive thru? Do you guys print them off or show the code on your phone?

Also, do you have coupons for grilled chicken sandwiches? (The #5)

I show them the code on my phone and they scan it. If you wanted to print it out you could, but it's easier for you and the employee to just scan it from your phone.

It's just chicken, pickles, butter, and bun. Sounds simple but they're pretty good

It's the highest quality fast food chain you can get. Service is spectacular (employees wanna suck your dick), stores are all clean, chicken is delish

Most other fast food restaurants use ground chicken patties for their sandwiches while Chick fil a pressure fries whole chicken breasts in the back yummy yum

Sandwiches are roughly \$3.05 (plus tax, if applicable) and if you purchase the set of 10 coupons it's about 95 cents a sandwich so roughly 69% savings. Very good deal for CFA.

The current price of the sandwiches plus tax is \$3.77 for the original and \$4.10 for the spicy chicken sandwich. So yeah 75% savings, gets cheaper the more you buy.

They are digital QR codes delivered to you via Google Drive link. You can use up to 8 coupons per order, and they should have no need to question you as to how you obtained the coupons. Also, coupons expire 2.5 months after you purchase. Hope this helps ?

I have been questioned twice, because I kept going in the same place, ordering 8 sandwiches at a time and nothing else. the question was simply "how'd you get so many" to which I said "online" and they left it alone.

gotta be the easiest way to get so much food, so cheap!(Where I live, after taxes, each sandwich is over \$4.00 X 8 = \$32.00~ of chicken for less than \$8!)

You can use up to 8 per transaction, and you can just show them the QR Codes on your phone. It won't be sketchy unless you're trying to order 10+ sandwiches at a time

What do you tell the cashier when they ask about the coupons? lol

The cashier always goes to ask a manager if I bring more than 3 coupons to scan, but most of the time the manager just tells them to scan it.

How does this work?

1. PM me with the items you would like to purchase
2. Let me know the email linked to your Chick-Fil-A app
3. I will send the rewards straight to your app!

Is there any risk?

Nope! There is no risk of these coupons being invalid! You can use as many as you would like in a single order.

Can I use this anywhere?

You can not use these codes at Chick-Fil-A express locations, such as in a mall or on a college campus. You can use these at any store that allows mobile ordering.

Payment Methods Accepted:

- Venmo
- PayPal
- CashApp
- BTC, LTC, ETH, ETC, ZRX, BAT

Before You Purchase, please make sure you have the chick-fil-a app downloaded to your phone and have an account.

To Purchase:

1. Click the contract link below
2. PM me on Hackforums or Selly with the following information:
 - Which items you would like to purchase

- Payment method
- Email address linked to your app

3. I will send you payment information and you will receive your rewards!

STATUS: IN-STOCK

Prices:

- T.O.S. -

Spoiler ([Click to View](#))

- Please give me the correct email when placing your order, I will not send replacements if you provide an incorrect email address
- If for some reason you are not satisfied with your purchase, please PM me here first and I will do my best to resolve your issue. Please do not sales trash.
- Any chargeback will result in a contract dispute, and a ban from using my services in the future
- There are some exeptions, but I will typically not issue a refund once the reward is sent
- Rewards Expire 30 Days after your purchase. You will not be able to use the "gift to friend" feature to send rewards
