Thread: [AV scanners that do not send samples](#)

Skull-13 - December 7, 2018, 4:47 am

I am not sure 100% if this is the right section for this but I am sure I will someone who knows about this.

As the tittle says I need to find a couple of AV scanners that do not send samples to the main AVs.

Please list them as paid ones and free ones.

I try to look for them with the search button on site and I have found nothing about it.
