Thread: [Tons of payed software FREE \(no warez\)](#)

TheGoldenRelik - December 8, 2018, 2:46 am

So I woke up and feel quite good today so I share with you some knowledge.

A site that can help you to save money, completely legal, is giving you ONE payed software per day, completely FREE.

The only thing you have to do is to check every day for the free software it's been giving.

Windows, android, ios and games are the categories you can choose.

No signup, you just have either to post to your fb the giveaway or give your email to send you the link.

Enjoy!

A donation is always appreciated and acceptable!
