Thread: [How do you remove someone from your ignore list?](#)

Ninja - December 8, 2018, 2:28 pm

I don't know if it's just me but I really can't find the option to do so. I went to my ignore list and I can't find any option to take the person off. Any quick help is appreciated.

Go to their profile. A button that says, "Remove User From Ignore List", will be below the user's signature. Click it. Voila!

Either click the little person icon with the red minus sign from your ignore list or visit their profile and click the button "Remove from Ignore List".

Thank you. It was at the bottom of their profile page and I didn't see it before.

That's another way to do it. Thanks.
