thanks in advance

Goku???? - December 9, 2018, 3:30 am

Naruto, without a doubt lol

Takehito Morokuzu - December 9, 2018, 4:39 am

The Future Diary, Parasyte, and King's Game. Maybe not exactly the same as death note but you'll probably like them.

Kanade Tachibana - December 9, 2018, 4:58 am

Code Geass and no game no life.

To add to this Zankyo no Terror and B: The Beginning, they are Death Note inspired anime and Psycho;Pass is a good one too

I double recommend Code Geass that kanade wrote, seriously is the most familiar anime to Death Note you should check it out.

Try things that aren't anime then

Ram - December 14, 2018, 1:54 pm

Death note and Parasyte main chars are chars that fit your category. Check it out!

Know any more like this? ?

Alderamin on the Sky.

Kaji: Ultimate Survivor. (Granted, wouldn't call him 'smart'. But mind games, it's pretty thrilling).

Shokugeki no Souma.

Ansatsu Kyoshitsu

Hyouka.

Some of the shows I like. Not all fits the bill 100% but I'd say some aspects of it, yes.
If you put Kaiji, I think Kakegurui fits as well even though she's not the "main" character per se

OrdYHD - December 16, 2018, 8:36 pm

If you have not seen it yet, try Psycho Pass xD

Narcient - December 17, 2018, 2:37 am

I'm currently watching an anime called Monster and the main character is extremely smart I'd recommend it

Not the point of topic - he asked for recommendations similar to Death Note, not another anime that's "lit".

I am hearing about this season 3 for around 2 years now without any release, I don't think it will be released, also even if it does I am sure it will be some ova or something so don't get much excited.
?

Yeah true, Only reason I mentioned it is because it was confirmed a few months ago again however this time with a trailer. Something to be hyped for but don't expect it basically is my motto.

on the website I am watching anime they release one recap of code geass and I got so excited because I thought it was season 3, you can't imagine how dissapointing was when i find out it was a shitty recap .

Haha reminds me of Naruto shippuden. "New episode, sweet! Oh its just another boat filler episode..."

God damn I can't believe I wasted my teenage years binge watching it when I could have just watched it at present time with the amount of time I have now compared to when I was a teen.

Love Code Geass, It was the first anime that I watched that actuality was mentally stimulating and enjoyable to watch. I was always on my toes. Death note is great also but it seemed a bit cheesy near the end.

Zens - December 20, 2018, 4:54 pm

nateslayer - December 21, 2018, 10:12 am

How about Log Horizon the MC is smart

Also Overlord probably

diamondburned - December 26, 2018, 4:14 pm

I doubt the Mirai Nikki part...

Though if you're looking for a bunch of smart protagonist anime, try the "harem" tag (pair it especially with the "isekai" tag)

SIM-3809238 - December 26, 2018, 9:25 pm

You can maybe try Kuroshitsuji

Tazxy - December 31, 2018, 6:02 am

jojo's bizarre adventure it's really cool it has 9 protagonists but not all parts are released there are only 5 parts that are anime other 3 are just manga

terrorists.
