Thread: [NewBie Guides to do Trade on HF & Avoid Scam](#)

CyberError - December 9, 2018, 7:19 am

Hey ,

Newbie , welcome to the forum , please take your time to read this thread it's gonna be simple thread and can help you doing trade with member here without much of hassel , as i really get hurt when someone get scammed here especially a new member

So,Let's Start With Contract

What is Contract ?

Well Contract is New System Implemented by our Admin (omni) , contract let you do bussiness with Term and conditions , like if you want to buy a software from someone you can make contract with him , with what features you want , you should mention all those features on the contract and here you go.

how to use contract ?

Go to Member profile you want to do trade with
Click on " Switch to Market Profile"

Then "Start Contract"

Then After That Write , enter Your or his Trade Purposel Thread , Where you found his Sale thread or whatever , you can leave it blank too

Put Your Payment address , if you're the seller , leave blank if you're a Buyer

Then Select Your Postion (you know)

Click On Start

Write your term's on note and wait until he accept your contract

Note :- Dont send Payment Until he Accepted your contract

After You Done with trading you can Click on "complete" and give Rating accordingly

Complete Full Explanation here :- <https://hackforums.net/showthread.php?tid=5873062>

Note :- Trading With New Member Is Risky , So Always Considered Using A MM
B-Rating Dont Show how Reputed he is , a 5 B-rating member and 300 B-rating member can be scammer too (depend's on \$\$)
Rep/Popularity Means nothing
Check user Profile and [community Alert Deal Disputes](#) Against him before dealing
All Deal Disputes need contract or else they'll be counted as Invalid Dispute (As mentioned by Omni here :- <https://hackforums.net/showthread.php?tid=5860133>)
Always Confirm Deal on Site ,and on contract , instead of Skype/Discord

Well i'll wait until someone reply to your answer ,

How do they work?

Good question, well they hold your amount until the seller complete his part , and then release upon your approval

Where can I find them? I thought "contract" was supposed to be some kind of escrow or middleman

Just remember that the B-rating can help determine if someone can be trusted in a deal, but not 100%. Always take precautions when dealing online.

Nice thread. If a person got scammed and he didn't use the contract system, it's 100% on him.
