I'm sure some people have bought cheap and sold for more but as for buying and selling in the award market that 20% will really hit the profit.

At this point of time I don't think it'll work. May be in future.

It's definitely possible to make profits, I received offers of various prices which allowed a margin of profits

And limited awards will be worth more in the future

The prices of awards will go up as soon as bitcoin does.
