Hello,

i'm searching for a hacktool i bought here. After i bought a new pc i lost the hack tool. I don't know the name from the hack tool. The hack tool captured all keyboard input and have saved all passwords from paypal/facebook/twitter. You can change the ending from the virus to disguise the other people to click on the virus.

I hope you can help me

Maybe check if you have any old PM's with delivery or payment of the product?
