It's my first beat or attempt at anything hip hop, vibe wasn't supposed to be a beat, but transformed after I added the drums from youtube

Listen to Kashiwa Daisukes album RE. If you like stuff like this you'll enjoy that album

Skip to about 1:50-2:00

I'm confused, what parts did you actually write? Because there is some advanced stuff going on.

Everything except the drums, I always create music without any percussion so wanted to try and add a beat in background to see how it turned out, after adjusted it from there.
