Description

So this user had a programming service and the deal was that he was to complete four programs, I paid him upfront stupidly since #SkyLine vouched him then took it back right after these issues started.... After waiting two months and no updates/contact for most the time I am getting frustrated and in terms to get this resolved I have taken further step after not being able to reach the seller again. He also stated in the contract he sent me the files/attempted to and was going to send them last Thursday. No response since/nor did I receive the updates he said he did. All I have is a program that has four buttons that do nothing for \$200 BTC and over 1 month and 21 days since payment.

Update; seller said he would fix issues this week/last week and still has produced nothing. BEWARE OF USER TILL THIS IS CLOSED - STILL NO UPDATE/REFUND/PROGRAMS. ALL DISCORD MESSAGES CAN BE PROVIDED TO STAFF. If no resolution to this/contact from user as he keeps logging in via discord and ignoring me as well. I hope staff can take desired actions with proof of deal/loss as it is looking right now.

UPDATE 2 ;

Staff has not done anything about this user yet, he is still operating on forums here. Still no updates/running programs as discussed in contract. This is clearly all this dude does for a living. I sent him an anonymous email stating I would publish his details online due to his scamming and increase everyone's warning about this user "Dean" - his real name and just got the most brain numbing reply and this should clearly prove the user has no intentions on completing my programs, nor refunding me and just added me to ignore list so he can continue to scam member's on these forums thinking I won't stop calling him out/nor post his info due to him scamming me and other member's.

PM from this scammer in text version; picture proof will be in thread.

UPDATE USER ADMITTING TO SCAMMING ME ON A THREAD ON HF ;

here is his reply on thread;

Spoiler ([Click to View](#))

(Dec 23, 2018 04:12 AM)traveling-monk Wrote: [CITE](#) This will be my only post on the matter so listen up you two bob half a shilling cunt...

Tell people the full story.. first of all, you paid for me to make you a bot.. which is nothing to do with skyline or anyone else on this forum.. it was MY thread not linked to anyone offering me design bots for people.... true or false? yep fuck boy true you know it i know it.

"Not at all, Skyline won't provide updates or refunds for product he sold lol" WTF are you talking about little cunt boy...?? really the products I sold with skyline has nothing to do with this... you NEVER brought any of the products, in fact, I GAVE them to you for free! true or false? yes, cunt face I know it's true and you do also.

"lol > Skyline has more contact info and has told me he has his name to contact via facebook etc. They both blocked me for updates regarding a program sold by SKYLINE. I don't know what you don't understand here." updates for what you mug you never brought the products why would I or he update you on them funny cunt...

You are butt hurt as because skyline and others blocked you as you spammed them non stop to ask for information about me, I told you before even in the content you posted here that if you want to know my number, address and all that fucking ask me! not once have you.. you are a keyboard warrior cunt.. o fuck me watch out some cunt from HF is going to call me or message me on FB holy shit please don't you will do fucking nothing.. post about me online o fuck don't, please.. lol

Anyway, with that being said let's get to the matter in hand.. people are probably falling asleep reading this by now so i will cut to the case.

You paid for a bot yes, agree, i was late with the bot 100% agree you then started to send PM's that where angry ok i accept that no issue, then you start mailing me (via throwaway email addresses cos your so fucking hard) saying you're going to attack my family and rape my sister lol, you then even posted via HF PM system, saying you will take more action and making it clear you where talking about your past threats.. now Mr Fuck face. I asked you to take all that back and say sorry and your bot is ready or you can have a refund. I have not had a sorry or anything I don't care what

is owed or about your bot....

You would not say shit to me in person about rape or my family, I don't give 2 fucks about you posting shit online do it like any of my team give a fuck..

Why are you asking all sneaky (asking for my details) and NEVER once asked me? I smell pussy...

now you're calling out others that have nothing to do with my bot building at all.. its just a sideline for me and has nothing to do with anyone on the forum skyline included.

It's even funnier your calling out skyline, and you have never brought any product provided by our partnership.

Let's have it right your crying and can't do shit so your making (is it 4 threads now) and calling out to anyone that will hear you.

The reason I blocked you on discord little cardboard cutout cunt is you just banged on without saying sorry..

Fuck you how is that for ya..?

I am not active on HF but you can PM me and cry some more.. or if you're going to do something then do it or fuck off get me? :)

Skyline or the other 2 people you have messaged have nothing to do with my bot work in any shape or form who is your contract with me or someone else>? me right? true or false...? true I know it you know it fuck boy.

Asking people for my phone number little cunt but cant ask me.

anyway, I think I have wasted enough time on this now...

p.s did I mention fuck you?

:)

Yeah I am hoping Omni will drop the bomb before "other" users do on him. Oh well lol, it's funny

watching what someone will do/the lies they will spin for just for \$200 USD Imfao.

NotAFed - December 13, 2018, 3:58 pm

I mean, he's not wrong... you kind of are a pussy for the email thing, but unfortunately the deal went sour and its a legit dispute.

lol, if being intelligent is being called a pussy I am more than fine being called a "pussy". But yes, it's a legitimate dispute and staff will need to deal with this.

You should've paid 50% before and 50% after, why did you paid all at once?

gore - December 14, 2018, 1:28 am

Any specific reason you've posted a second thread w the same info in it?

Also, I get you're upset about being scammed, but spamming it everywhere (and bumping his old threads) is only gunna hurt you in the long run for LQP.

And just so you're aware, staff aren't REQUIRED to deal with scam reports, period. You make all deals on this site at your own risk. If Omni happens to jump in and ban him, that's completely to his own discretion. Keep bumping his shit with "he scammed me!" Posts and more threads and you're probably gunna be the one who ends up banned first.

And someone was curious why I sent payment upfront I did it to show him I was legit and #Skyline vouched him.

But thank you for the advice and I will remember for next time sir!

Michelangelo TMNT - December 18, 2018, 3:17 pm

I have contacted "#Skyline" his partner four times now. I've asked the user to share his "partner" who he vouched for personal and said he had contact info. I figured he would let HackForums BEWARE of this user/his partner. As he has stolen my \$200 USD and vouched him and partnered with this user on what appears a "couple" of projects for sure "CrackAttack, SocialRiches". And I have asked him to inform me, or the rest of the users if the updates for "CrackAttack" and "SocialRiches" will ever

be released or members will be refunded for not all the “modules’ working as stated and promised in the thread such as the “Netflix, PSN etc’ this was all advertised and customers paid for and never receive a program that does either and much more. Beware HackForums, more threads and proof to come soon. Maybe #Skyline will reply with his partners contact info/Facebook profile or maybe he will back this scammer up as it appears he has so far.
