Thread: [100% FREE, 100% EASIEST, 100% GUARANTEED \\$100+/MO \(For LIFE\) GIVE-AWAY](#)

eWebsite - December 13, 2018, 7:02 am

Hi,

I am on my way into building a network of websites, which will become the largest website in the world, both in terms of traffic and contents - this is my target.

I am an Internet Marketer, located in India and I request your 100% free participation in this project of mine by donating me your bytes. If you donate me 33 bytes (minimum), then I will be paying you \$100/month for life. If you donate more bytes, then \$100/month per 33 bytes will be the rate.

I promise and guarantee that I will fulfill this project and your payments.

While you are making donations of bytes, please include your permanent email address in the box while donating the bytes.

Thanks & Awaiting your speedy actions,

Sanjay

I don't know what's worse. The user posting this, or people believing and sending bytes. First of all, why do you even need bytes for this project?

DO NOT SEND YOUR BYTES TO THIS GUY.

He was trying to sell an eBook for 33 bytes a while ago, he didn't get any sales so he changed his approach. He's either going to send you that eBook or just scam you.

If you already sent him your bytes, ask for a refund or post a community alert.

It's just common sense.

Who the fuck would pay \$100 a month for something whose value doesn't surpass the \$1 mark?

I want my monthly payment upfront. Send me the BTC and I'll send you the bytes right after. I'll be happy to leave a vouch in this thread when you do. Let me know and I'll PM you my BTC address.
