Do you push the crosswalk button more than once?
Do you really believe it makes it faster?

Oran2009 - December 14, 2018, 8:49 pm

I just don't push it... ever...

I keep pressing it until I can walk.

I feel it does nothing, but fuggit.

CallmeMaybe - December 15, 2018, 2:04 am

no cause the buttons are broken around here

Didn't you just ask this about elevator buttons? lol. No, I don't think I do actually.

Elevators only. Btw you might have OCD.

The button feels like a placebo to me, nothing really happens, I just walk either when the road is empty (I don't give a shit about the color of the light) or when it turns green and the cars actually have to stop.
