Vouch review:

I don't have much to say, this method is not private and original. I've already seen this at least 3 times here on HF.

The ebook is only 5 pages long and considering this is not private, it could have been more detailed and long.

Yes, it can bring you money but it's not instant profit, but you need to work some weeks before seeing the results.

The method is whitehat and can be done by everyone.

This ebook is worth 10\$ IMO. Not that method is bad, but it's not worth the money and you may get disappointed if you already know the method.

I recommend this to beginners that have never bought an ebook and are willing to put work to get some money.

This was my honest review, good luck. ?

Okay so i was given a vouch copy by the OP and i've read all the methods mentioned in the eBook.

So here's my detailed review about the eBook :

This eBook contains several methods but most of them are for making money using the online forums, it tells you about reselling of different digital contents which you can buy from a place which OP has mentioned and can resell at other places (i.e online forums).

You can setup your own shop for the digital contents you will be trading, this eBook contains some blackhat or greyhat methods as well because it involves cracked accounts as well so if you're looking for 100% legit methods don't try these methods but there are many more methods which are 100% legit and can be practiced by you.

Do you have to invest money ? : Yes you have to start with a little investment in most of the methods mentioned.

Do you have to invest money in every method mentioned : No it's not like that, there are some

methods where you don't need to invest any money at all.

Would this be profitable ? : Yes it would definitely be and would be more profitable in the long run.

Should i buy this eBook : You must do if you're new to online forums and looking for ways to make money as this eBook gives you best about the ins and outs of making money online mostly via online forums where you spend most of your time.
