Thread: [Away and Back](#)

**Omniscient** - December 17, 2018, 8:12 am

I was away last week and now I'm back. Xerotic and I have a few features ready to add to the site and I'll be catching up with all the PMs and Contacts asap. Please be patient.

Thank you.

Byte Duels would be pretty awesome

**b?xxy** - December 17, 2018, 8:23 am

How come you never send me those "hey wyd"s at 3 am anymore.? :/

**PerfectStorm** - December 17, 2018, 8:24 am

Great to see you back and around any plans in store!

You must have a Popularity Level of: 500 to unlock this feature.

**Banter.** - December 17, 2018, 8:40 am

Excited to see what comes, good to have you back bud

**reBELLYus** - December 17, 2018, 8:48 am

Excited to see the new changes/implementations.

Welcome back!

**Eagle 95** - December 17, 2018, 9:12 am

Hey there, welcome back! ?

**Omniscient** - December 17, 2018, 9:47 am

I gave Xerotic assignments most of which are done and we'll implement them in the next couple days after some bug testing and fine tuning.

I hope to begin some new work on Crews asap.

**Effexion** - December 17, 2018, 10:37 am

Talking of PvP, imagine a Hackforums poker app where a bunch of us could sit at a table :o.

Wish I was much further into my PHP course lol. I could have started something but I wouldn't know where to start as it stands.

Pretty cool, you should add text tools similar to: <https://textmechanic.com/>

I use this site a lot and I'm sure a lot of members would benefit from features like this.

**Cyber** - December 17, 2018, 10:59 am

Welcome back Omni, I figured you were taking a long nap and relaxing, glad you're back and getting things done!

#2: SoundCloud Embed is now back.

Code [soundcloud]<https://soundcloud.com/swagytracks/logic-welcome-to-forever-ft>[/soundcloud]

Just use the regular SoundCloud URL and put it in between the tags.

Welcome back. Hoping for more and more changes next year.

**Yin Yang** - December 17, 2018, 11:32 am

Hopefully new stuff with the holidays coming up

One of the sites I use regularly and have bookmarked. Partly what gave me the idea of HF Tools. We have a nice list of ideas for the page. Over time we'll develop as many as them as we can.

I made something like this in VB.net a while back. Learning PHP at the minute so will probably be able to make that soon. No doubt someone who already has the skills will kump in though. If it's anything like how I built the VB.net one, it will be simple to do.

**fordtough1972** - December 17, 2018, 12:04 pm

Can't wait to see what you got! Welcome back!

**Musquito** - December 17, 2018, 12:09 pm

Nice can't wait to see some new content.

All of the textmechanic tools are pure JS. You can save them localhost for use.

I can feel it.

(And I might have peeked)

Window key + period triggers the picker :D

????

That is a Google Chrome feature and not an HF feature. ?

**Skorp** - December 18, 2018, 3:44 am

Welcome back Omniscient, definitely looking forward to the new implementations! ?

I can feel it too but not sure if it's related to bytes.
